Honan sees improved milk prices

By DIETER KRIEG

CHESTNUT LEVEL — Dr. James E. Honan, general manager and secretary of Inter-State Milk Producers Cooperative, spoke at District 3's annual dinner meeting here, on Tuesday, and predicted that Class I and II prices will rise for January and February and then drop $1.00 to $1.30 by this summer. He described the market as being "considerably improved" since last summer and suggested that any drops experienced later this year would not be near as large as they were during the past two years. The primary reasons for this are that there is an increased demand for milk and because of the increase in floor prices which were approved last October.

The increase in demand for milk has left Inter-State with the unique situation of having to buy milk from a neighboring cooperative to meet its needs. "You have sales which you can't meet," Honan told the gathering, "we've got the market for you." He encouraged those producers who could increase production economically to go ahead and do so.

The Philadelphia-based cooperative is currently seeking new members, Honan revealed, because of the great demand for milk and the market which is available. In addition, Inter-State is seeking a contract with Maryland Cooperative Milk Producers Cooperative of Baltimore to have them supply 9-million pounds of milk per months on a regular basis. Inter-State has been buying this quantity lately to meet the expanding Class I market in the Philadelphia area.

Class I sales are 10 percent

Jane McSparran, seated, daughter of Mr. and Mrs. Robert McSparran, Peach Bottom, is the state's new Guernsey Queen. Runner-up in the contest, which was held at the Farm Show, was Debra Crider, center, daughter of Mr. and Mrs. Fred Crider, Nottingham. Debbie Reinsel, left, and Peggy McKann, from the western part of the state, complete the court.

Baseballer urges pride for farmers

By DIETER KRIEG

MOUNT JOY — "The price is up, production is up, and some cooperatives may be experiencing problems this Spring in trying to figure out where all this milk is going to go," said Bill Stoudt, representative from Lehigh Cooperative Milk Producers which buys milk from the Mount Joy Farmers Cooperative. The latter met here Thursday afternoon for their annual meeting which was attended by approximately 160 people.

The three-hour meeting, which included a hot lunch, was highlighted by talks given by Stoudt; Robert Barry, president of Lehigh; Paul Hostetter, manager of the Mount Joy Farmers Cooperative, Roy Alger, president of Mount Joy Farmers Cooperative; Jim Greider, 4-H grand champion steer exhibitor; and Gene Garber of the Philadelphia Phillies.

Garber, the son of Mr. and Mrs. Henry Garber, Elizabethtown, was raised on his parents' dairy farm and expressed a sincere attachment to life on the farm. He urged farmers to be proud of being a farmer - "act like it, talk like it" - and added "When I get done I'll probably farm." He did not leave the podium, however, without giving baseball fans

Heifer program detailed

By MELISSA PIPER

LANCASTER - Every month - beyond two years of age - that a heifer does not join the milking string in a dairy herd, costs a producer about $60 according to Dr. Gilbert Porter, director of Research and Development for Agway, Inc.

Dr. Porter offered his remarks on herd replacement programs during Agway's Dairymen's Day meeting held at the Holiday Inn here on Tuesday.

Explaining that between $60-70 was lost per month per cow both by production and feeding, the research official stressed the importance of including heifers as early as possible after 24 months.

"There is a possible profit potential being lost when these heifers cannot join the

Chester DHIA year concluded

GUTHRIESVILLE — Chester County dairymen met here at the East Brandywine Fire Hall this past Thursday evening for their annual DHIA meeting and awards banquet, with 286 people in attendance.

Special recognition was given to 16 herds in the County which finished with butterfat averages of 600 pounds or better. With 156 herds on test during the past DHIA year, this amounted to about 10 percent of the herds. A milestone was reached in 1975 in that it was the first time ever that the County's DHIA milk production average topped 13,000 pounds of milk. It had hung

Ephrata Jaycees bestow honors

Distinguished Service Award

EPHRATA — The Ephrata Area Jaycees named Lewis C. Ayres and Thomas L. Zartman as their Distinguished Service Award winner and Outstanding Young Farmer, respectively, at an awards banquet held last Monday night. Ayres is a teacher of vocational agriculture at Ephrata High School and has been instrumental in furthering FFA and community programs. Zartman started farming on his own five years ago and now operates a total of 250 acres near Mt. Airy.

Lew Ayres

Awarded the Honorary American Farmer Degree at the National FFA Convention last November in Kansas City, Ayres has headed the Ephrata vocational ag. program since it was initiated 15 years ago and since that time has had three students who themselves have won the American Farmer Degree.

Forty of his students have received the Keystone - Farmer Degree and 21 youths in his program have participated in national FFA judging teams. Besides that, the 37-year-old Ayres introduced "tent city," vocational, and 4-H exhibits to the Ephrata Fair, and was instrumental in starting the Lancaster County Swine Show.

Ayres also began the work experience program for seniors at the High School and expanded the vo-ag

PROFESSIONAL CONSULTATION FOR PROGRESSIVE FARMERS

1. Is pH a false indicator of the calcium/magnesium balance in your soils?
2. Is sulphur holding back the yield and protein content of your crops?
3. Do you need all that phosphorous you're paying for?

If your present soil tests don't answer these questions, you need our technical help. Our soil tests and analysis will help you balance soil fertility, which increases yields and profits.

WE SELL NO PRODUCTS . . . ONLY RECOMMENDATIONS

We specialize in soil fertility, tillage and livestock nutrition. Our recommendations will help you make more rational business decisions.

Local Grain

Friday, Jan. 23

These prices are made up of the average prices quoted by a number of participating area feed and grain concerns. It should be noted, however, that not every dealer or broker handles each commodity. All prices are per bushel except ear corn and soybean meal which are per ton.

The average prices quoted Friday, Jan. 23, are as follows:

	Bid+	Offered+
Ear Corn	60.00	65.00
Shelled Corn	2.64	2.81
Barley	1.93	2.13
Oats		
Local	1.63	1.78
Western	1.88	2.00
Wheat		
Millers	3.15	3.25
Soybeans	4.15	4.49
Soybean Meal		177.00

COST CUTTER

The cost of diesel fuel has jumped nearly 70 since October 1973 and it's still about three cents a gallon cheaper than gasoline Higher fuel costs call for a closer look at total operating costs when you buy engines Deutz air cooled engines use 20 to 40 less fuel than most water-cooled diesel engines—far less than gasoline engines And they are competitively priced So hadn't you better buy or specify the cost cutter—Deutz? 10 to 500 bhp

SHEEP 5. Few Choice 85-100 lbs. wooled slaughter lambs 51.00-55.00.

Cow slaughter up

DENVER, Colo — Cow slaughter in the U.S is now estimated to have totaled 11 6 million head in 1975, the American National Cattlemen's Association said today

This represents an increase of 54 percent over the 1974 total of 7.5 million head. Also, it is 16 percent greater than the previously projected total of 10 million head for 1975.

As a result of the record large cow slaughter in recent months, it now appears that the nation's cow herd (including both beef and dairy cows) on Jan. 1, 1976, was between 53 8 and 54.3 million head — or three to five percent less than a year earlier This will be the first decline in the size of the cow herd since 1967.

The total cattle inventory as of Jan. 1 is now estimated to be approximately one percent lower than the 131.8 million head on farms and ranches a year ago. Thus, there appears to have been a reversal in the cyclical build-up in the total cattle herd.

Cow slaughter in November totaled 1.2 million head, up 18 percent from the previously projected total of 1.02 million head for the month December cow slaughter is estimated at 1.3 million head. This figure, up 23 percent from previous projections, is considerably greater than expected by most observers.

The projections referred to in the ANCA report are monthly and annual cow slaughter rates previously estimated as being needed in 1975 and on into 1976 in order to put cow numbers in better balance with beef demand. The projections and recent estimates were made by economists with Cattle-Fax, the market analysis service sponsored by ANCA

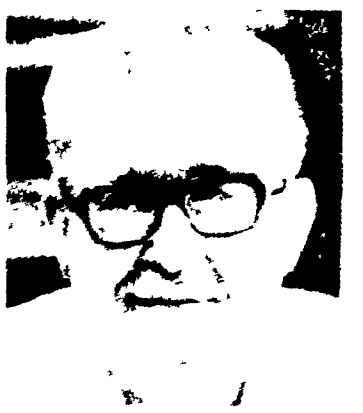
In Accord With Our Dedication To Helping Our Customers Do An Even Better Job And Therefore Make More Profit, We Are Promoting This Fine Product To Help You Start The Year Off Right For Your Future Herd.

SUPER CALF TONE

CECIL MELTON
Vice-President
In Charge of
Nutrition, Consulting
and Products



What is Super Calf Tone? It is high potency levels of all vitamins including all water soluble B-vitamins and all trace minerals, plus full spectrum of chelated trace minerals. All these are incorporated in a base of the best combination of water soluble milks we can buy so it goes into suspension along with your milk replacer. It therefore not only supplies the high levels of all vitamins and trace minerals, (sometimes referred to as electrolytes) but also supplies high nutritive elements from the high quality milk products. There are NO drugs of any kind in Super Calf Tone.

What is Super Calf Tone for? To furnish the high levels of nutrition needed to get the calf off to a good start at the most critical time of his life. Remember the calf is your future herd and if it has problems in the first two weeks of life its chances of becoming a good strong high producing animal have been seriously impaired. Too big a percentage of calves die during this critical period from a multitude of reasons, most of them complicated by poor nutrition and managements.

Super Calf Tone is also for use on any size and age calf that is doing poorly from any cause It is a highly palatable product and will be eaten readily when sprinkled on grain rations.

HOW TO USE SUPER CALF TONE:

First I want to stress that the calf should always receive colostrom milk for the first 72 hours. This is where it gets the anti-bodies necessary to build the immunities to all the things floating around that it is born into.

Then starting with the first milk replacer or whole milk feeding, add one ounce per feeding (two ounces per day) to your regular feeding. If you wish you may reduce your milk replacer being used by an equal amount (one ounce per feeding) but it is not necessary. Continue for 16 days or longer if conditions warrant it. When using on a calf that already has problems double the amount (two ounces per feeding or four ounces per day) for 7 to 10 days.

When using on calves that are already off milk and getting only grain, just sprinkle Super Calf Tone on top of the grain. Just for general toning up, feed two ounces per head per day and, again, for a calf in trouble, double to four ounces per head per day. If a calf is not eating his grain and therefore not eating the Super Calf Tone, do not hesitate to mix in a pop bottle of warm water and drench them. This is a very simple task on a calf and I'm sure two to three days of drenching will help restore their appetities, then go back to sprinkling on top of grain.

The necessity for this product is brought about from the fact that it is almost impossible for you dairymen to purchase a milk replacer with enough vitamin unitages to take care of today's conditions. When they do have vitamins they are usually only A and D and low at that. Very seldom do they have B vitamins, which are very essential to the calf as it is a single stomach animal in the beginning and does not have a rumen to manufacture B vitamins. You will very seldom find a milk replacer with the full spectrum of electrolytes or, if so, not enough, and almost never will they have chelated trace minerals. Super Calf Tone carries them all and in very generous amounts.

Most of you fellows are using Super Micro Conditioner on your milking herd and know what an outstanding job it is doing. Super Calf Tone will do every bit as much for your calves. It will do exactly what the name implies - Tone Them Up. Again remember, that calf is your future herd.

If any questions regarding Super Calf Tone or anything else, please give us a call.

Yours for Stronger and Healthier and Better Looking Calves

Lancaster Farming

EDITORIAL COMMENTS

BY DIETER KRIEG, EDITOR

Changing attitudes

It's amusing how attitudes and styles have changed during the last decade or two

For example, the kind of clothes my mother wouldn't let me wear anywhere but in the barn are now the rage of teenagers across the country

Not too many years ago the countryside was considered to be the boondocks and those who lived there were somewhat out of touch of reality Today everyone seems to be wanting to move to a farm, or at least close to one. Have you heard the ad on the radio which makes a big deal about some apartment complex being right across from a working dairy farm? The commercial starts out with a deep "moo" from a cow, and the announcer follows it with: "What's a cow doing in a commercial for . . .? Anyway, living next door to a farm is the "in" thing to do because it represents serenity, peace, fresh air, and all those other neat things farmers have known about for a long time

Farmers have a reputation for skipping an appointment with their razor from time to time, and that, too, is no longer their exclusive. The unshaven look is "in" along with bib overalls, faded jeans, a house in the country, and fresh air

Not to be forgotten is the impression many people now have of farmers Town folk are finding out that farmers are businessmen, and that their wives often have enviable kitchens. While they're still not fully understood, it can be said that farmers are beginning to receive more attention And last of all, but certainly not least, people are finding out that the men who work with animals and "dirt" aren't as dumb as they thought they were. In fact they're copying many of the farmers' ways and competing for a home in the "boondocks" more fiercely than ever.

Close places, wide prices

There's too much of a spread in prices paid for champion animals and those farther down the line, a knowledgeable and experienced cattleman said recently.

The man expressing that opinion was Francis Murren, who exhibited the very first grand champion 4-H steer at the Farm Show 50 years ago. On hand to present the purple and golden banner to this year's Farm Show grand champion, the 67-year-old Murren noted that back in '26 there was only a spread of 12 cents between the top price paid for his animal and the average price paid for the remaining steers.

His reasoning behind the statement is that the kids at the Farm Show all had to work hard to get there in the first place, and their efforts should be more evenly rewarded.

In most livestock competition, the judge frequently comments about the closeness of the contest, particularly among the top several placings. Taking this into consideration, can we really justify a spread of several thousand dollars between a grand champion and reserve grand champion animal? The distance in prices is often again as wide between the second-high individual and the third-place exhibitor.

Mr Murren, involved with beef cattle for all of his life, and an Adams County 4-H beef club leader for more than 20 years, believes the system could be more fair and representative of the efforts put forth by contestants. His opinion merits a lot of consideration

Life on the farm

A fiercely cold wind, carrying an endless cloud of icy snowflakes, battered my bare face. Coming straight at me from the west, it made it nearly impossible to see, and sometimes even difficult to breathe.

My feet were beginning to get numb as I drove back and forth along the lane from the barn to the road, clearing the snow away with an older model farm tractor which had no cab and only a small blade which wasn't designed for pushing snow. Progress was slow, and oftentimes I wondered if it wasn't really the storm which was winning this battle.

When milking time approached, I had been out on the tractor for nearly three continuous hours. My coat, hat, pants, and boots were covered with snow and ice. My face felt as though it was melting when I stepped into the warmth of the milk house to assemble the milking machines and connect the pipeline to the bulk tank

Outside, there was no let-up on the steady assault of the storm. More than a foot of snow was already on the ground, and there was no telling how deep some of the drifts might be. The wind whistled; sheets of tin were starting to come loose; doors rattled; and the electric wires heaved back and forth, making me wonder when they might snap.

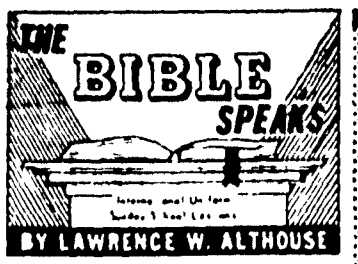
While cows waited to be milked, I wished I could turn each one of them off. I didn't want to be milking that afternoon, and I stalled as much as I could, frequently walking to the windows to observe what was going on outside. If those electric wires snapped then there would really be trouble because cows do have to be milked regardless of the weather or presence of electricity.

The highway was approximately a quarter mile away. A pale-yellow beam of light faintly penetrated the curtain of snow and for an instant there was a flash of joy that ran all through my body. As the lights approached the end of the lane, I silently repeated "turn in, turn in!" to myself. The vehicle kept going and all of a sudden I felt even more tired and weak than before.

I lifted the lid of the bulk tank and stared into it for a moment before continuing to assemble the milking equipment. The milk was within three inches from the top. When the agitator was turning, it actually spilled some milk over the edges. Each inch in height represented about 200 pounds of milk. I guessed it would hold 500 more pounds if the agitator were turned off. The cows would produce around 1,000 pounds tonight.

The phone rang. A neighbor wanted to know if the milk truck had picked up our milk yet. "No," I said, "we expected him this afternoon - the driver's wife had called about making sure the lane was cleared, but he must not have returned from Philly yet."

Two-thousand pounds of milk and 15 hours later, the milk truck pulled up to the milk house. The snow had crippled things all over the place - at the milk plant, on the roads, and on farms. Farmers lost a lot of money during that February storm four years ago, and milk truck drivers lost an awful lot of sleep trying to get their tankers from one place to another.



DOES GOD SEND YOU?

Lesson for January 25, 1976

Background Scripture: Matthew 9:35 through 10.42
Devotional Reading: Isaiah 52:7-10

The Bible speaks much of God calling people, but it also has a great deal to say about his sending people as well.

God sent Adam and Eve out of Eden and into the world. He sent Abraham to a distant land unknown to him. He sent Jacob and his sons into Egypt and later he sent Israel out of Egypt under Moses. With Joshua leading, he sent them into the Promised Land.

Kings and prophets were also "sent," and when Jesus was born into this world, writers of the New Testament said he was "sent." Whenever man encounters God, it seems he is sent out into the world with a task or mission.

Behold, I send you . . .

Matthew sums up succinctly Christ's mission: "And Jesus went about all the cities and villages, teaching in their synagogues and preaching the gospel of the kingdom, and healing every disease and infirmity" (9:35).

But Christ's mission was not limited to Christ alone. It was obvious that the mission field was greater than any one man, even this one man! Looking with compassion upon the great masses of humanity whom time and effort would not allow him to reach personally, Jesus said to his disciples: "The harvest is plentiful, but the laborers are few; pray therefore the Lord of the harvest to send out laborers into his harvest" (9:37).

It became apparent to the disciples that the Messianic mission was intended for them as well. They had heard his proclamation of the kingdom. They had listened for hours to his teachings. Now he "gave them authority over unclean spirits, to cast them out, and to heal every disease and every infirmity" (10:1). Thus empowered, he says to them: "Behold I send you out . . ." (10:16).

Do not be anxious

So the disciples were sent out by Jesus and discipleship continues to involve being sent for Jesus Christ. The "harvest" is still "plentiful" as it was in the days of Jesus' mission in the flesh. Disciples of Christ are still praying "the Lord of harvest to send out laborers into his harvest," and Jesus is still empowering his followers to preach, teach, and heal.

The circumstances of our individual missions may differ greatly, but no one who attempts to follow the Lord is without a mission of some kind. Some of those missions are quiet and subtle; some are loud and flashy: but every Christian has a mission; every disciple is sent by God.

We may feel inadequate, but the key is to be found in Jesus' assurance to his disciples: ". . . do not be anxious how you are to speak or what you are to say . . . for it is not you who speak, but the Spirit of your Father speaking through you" (10:20).

Make no mistake: if you're a Christian, God is sending you too!

NOW IS THE TIME . . .

To Become Interested In Proper Land Use

At a recent meeting the subject of proper land use and the preservation of agricultural land was given a good discussion, many folks are interested in this subject but few seem to be doing much about it I'd like to urge folks to learn all of the facts about the proper use of our good land and then let local government officials know about it Public opinion out in each township will be heard by local officials and give them some idea of the direction they should be going Some local officials have been blamed for "dragging their feet" on preserving farm land; if the majority of local folks want land preserved, then township officials should know of it and take proper action.

To Reduce Feed Waste

Feed is one of the major costs in livestock and poultry production. Whether it is home grown or purchased, it should be used efficiently at all times. Some feeders permit the animals to waste both silage and grain by working too much down at one time Other feed troughs are in poor condition and allow feed to drop out the bottom. All producers are urged to check their feeders and feeding practices to be sure that costly grain is not going out with the manure Rats and mice are very expensive rodents to have around adding to additional pounds of wasted feed

To Check Barn Ventilation

The recent cold weather might reveal the need of improved ventilation in some dairy and livestock barns When windows, walls, or ceilings become wet from condensation it is a sign of the need of more ventilation, or more insulation Most barns are carrying a capacity of livestock at this time of the year The warm, moisture-laden air should be removed from the barn in order to prevent condensation Also, extra insulation may be needed to reduce the contact between warm and very cold air Electric exhaust fans are strongly suggested to remove the foul air and improve herd health

Farm Calendar

Jan. 26

Chickies Creek Flood Control Meeting at the Farm and Home Center, Lancaster, 7:30 p.m.

Pennsylvania Farmers Union state convention at the Sheraton Inn, Harrisburg, program lasts through the 27th.

Farm Management Workshop, Dr. Sam Dum speaker; 7:30 p.m. in the Municipal Building Lebanon.

Resolutions adopted

Grange Master chosen

By: MRS. CHARLES McSPARRAN
Grange Reporter

WAKEFIELD - Jesse Wood, Little Britian Township, was installed for a third two-year term as Master of Lancaster County Pomona Grange No. 71 at their regular meeting Saturday night January 17 at the Robert Fulton Inn, here The Master of the Pennsylvania State Grange, J. Luther Snyder, assisted by Mrs. Snyder as Marshal and his two daughters, Anna Mae and Lou Ann, as emblem and regalia bearers and Mrs. J. Richard Jackson, a member of Lancaster County Pomona Grange, pianist, installed Wood and these other officers: Harry Baker, Overseer; Mrs. J. Stanley Stauffer Jr., Lecturer; David Brinton, Steward; Clifford Holloway III, Assistant Steward; Mrs. Clifford Holloway III, Lady Assistant Steward; Loran Brinton, Chaplain, Charles McSparran, Treasurer; Mrs Ira Welk, Secretary; Miss Peggy Galbreath, Ceres; Miss Helen Wanner, Pomona; Mrs Richard Holloway, Flora; Executive Committee member, Richard Maule; and Finance Committee members, Melvin C. Boyce and Clifford Holloway Jr.

Pomona Master Jesse Wood appointed the following committees. Legislative, Norman Wood, J Everett Kreider, Richard Maule, Donald Trimble and Alfred Wanner Sr.; Women's Activities, Mrs. Charles McSparran, Mrs. Charles Reath, Mrs. Loran Brinton and Mrs. Alfred Wanner Jr.; Youth, Miss Peggy Galbreath and LeRoy Welk; Young Married, Mr. and Mrs. Clifford Holloway III; Membership, Mr. and Mrs. Clifford Holloway Jr. and Harry Baker.

In other business the county Grange adopted the following resolution:

WHEREAS, The 27th. Amendment to the United States Constitution known as the "Equal Rights Amendment" already ratified by the state of Pennsylvania, will invalidate all State and Federal laws which impose different obligations on men and women. And

WHEREAS, Said Amendment would wip out all state laws which require a husband to support his wife, would erase state laws that exempt a wife from her husband debts, repeal anti-abortion laws, require 18 year old girls to be drafted for military duty should a draft become necessary, and take away the right of a wife or widow to receive Social Security benefits based on her husband's earnings. And

WHEREAS, Said Amendment would almost destroy family life as we now know it. Be it.

RESOLVED, That Lancaster County Pomona Grange No. 71, meeting in regular session January 17, 1976, go on record supporting Pennsylvania Resolution No. 53 that would rescind Pennsylvania's ratification of proposed 27th Amendment.

Mrs. J. Stanley Stauffer Jr. and Mr. and Mrs. Clifford W. Holloway Jr. were proposed as nominees for appointment to the Board of Directors to Health Systems Agency for the 8-county south Pennsylvania region.

Members were urged to attend a meeting at the Farm & Home Center, Lancaster, January 20, 9:30 a.m. when the Rural Area Development Act will be discussed.

Grange officers and other Grangers were asked to attend a regional meeting for Granges in Region H at Kutztown Grange Hall January 31, 7:45 p.m.

Mrs. Jesse Wood, retiring Lecturer, presented a memorial program in memory of William H. Ambler, Mrs. Margaret Pritchard, Mrs. James Kelly, Mrs. Gyles Brown and W. Reed Giffing. Taking part were Mrs. Sylvia S. May, Loran Brinton, Mrs. Richard Holloway and Miss Peggy Galbreath who sang "In The Garden" and was accompanied by Mrs. J. Richard Jackson.

The business meeting was preceded by a dinner at 7 p.m. Grange visitors from York and Chester-Delaware County Pomona Granges were also in attendance.

The next meeting of Lancaster County Pomona Grange will be held at White Horse Fire Hall as guests of Salisburg Grange April 17, 8 p.m. Colerain Grange will host the picnic meeting August 14.

The theme of the program for the January 26th meeting of Fulton Grange to be held at Oakryn will be Pennsylvania Farm Show Gleanings & Reflections. There will be a vocal solo by Mrs. Richard Hanks, a talk "What's New In Farm Machinery" by Jesse Wood and presentation of Fulton Grange members who were honored at the Pa. Farm Show.

Fulton Grange will hold Open House February 9 when the public is invited to attend a special Bicentennial program which will be presented by kerosine lamp light. Members are asked to bring old kerosine lamps also for display. Boy Scout Troop 330 will present the program at the Feb. 23 meeting and there will be a cherry pie contest in charge of the Women's Activities committee.

Jesse Wood, right, was recently installed for a third two-year term as Master of Lancaster County Pomona Grange No. 71. Taking part in the ceremonies, held at the Robert Fulton Inn, Wakefield, was the Master of the Pennsylvania State Grange, J. Luther Snyder.

We cannot expect to solve the farm problem in a day or in a year, or perhaps even in this Administration. But we can and must adopt a new approach based on a clear recognition of the goals we seek . . .

Milk prices

(Continued from Page 1)

higher than a year ago, Honan noted, hinting that the increase may be due to increased awareness on the part of housewives that milk is a good buy. "Advertisements haven't hurt any," said Boyd Gartley in a telephone conversation after the meeting. He heads the co-op's public relations department.

Honan said the actual price of milk in the store is still about the same as it was 18 months ago, if per gallon prices are used. Marketing milk in larger containers has been a trend which is catching on, he indicated, while smaller amounts of milk have taken the increase in price.

A bill proposing an 85 percent parity level for milk is presently awaiting action from President Ford, Honan announced, adding that the figure is considered to be "a bit too high" by many dairy leaders. The alternative to the 85 percent parity rate is a proposal which would leave it at 80 percent with quarterly adjustments

Switching his talk back to prices which might be expected later this year, the cooperative leader noted that premiums have not been necessary for Class I milk since Oct. 1 and that they are likely to remain dormant unless significant drops in the price of milk are encountered this summer. But the situation is different with Class II milk. A 10-cent over-Order price adjustment (premium) is still in effect. At any rate, if a Class I premium is initiated later this year, it is not likely to be as large as it was during last year, Honan indicated.

Focusing his attention on the Order 4 expansion program, Honan acknowledged that there were some difficulties encountered but that the "general questions are now pretty well finished." He also spoke briefly on the confrontation between Order 4 and Order 2, which amounts to an accusation from Order 2 that Order 4 is moving in on its market The solution, Honan said, is not one-sided He explained that the controversy has existed for a long time and is likely to stay If and when solved, it will have to be through the leadership of all cooperatives involved, not just Inter-State

Two questions facing the cooperative at the present time are "balancing milk," which is basically a question of how to handle the perishable product over holidays and weekends The other questions concerns every producer, and is one which "you can't always run away from," Honan said. He was referring to hauling discounts and urged members to continue pondering the issue.

In other activities at the District 3 meeting, Associate County Agent, Alan Bair announced that a DHIA workshop will be held at the Quarryville Fire Hall during the morning of Feb. 4, and that Dairy Day is March 2. Donna Akers, the County's Dairy Princess, offered remarks concerning her reign and encouraged any eligible girl to seek the title. K. D. Linde presented the delegate's report from the annual Inter-State meeting which was held at the Host Resort in Lancaster last November.

Linde told the group that the highlight of the meeting was directed towards a better relationship with the public, and that it was a "really inspiring" experience for him to see the proceedings first-hand. Expressing amazement at all of the ideas which were presented at the two-day affair, Linde opinionized that raising the milk advertising and promotion deduction to 8 cents would be "okay" in view of higher milk prices. In concluding his remarks, he said attending the annual meeting was a "real satisfaction" and encouraged others to "come to the meeting to see how farmers cooperate and work."

Five 4-H'ers were honored at the District 3 meeting for their achievements with dairy projects. They were: Jane McSparran, Debbie Crider, and Mary Kirk, all of whom are members of the Golden Guernsey Club; and Karen and Ellen Schmuck who participate in Ayrshire, Brown Swiss, and Jersey activities.

Twenty-five year memberships were awarded to Mrs. Edgar Jackson and Son; Enos Peiffer; and Robert McSparran, who serves as director for the District.

McSparran raised some eyebrows in the audience more than once while presenting a brief talk on the dairy business as it was during previous decades. In 1900, for example, his father shipped 1,563 pounds of milk one month - which were churned into 66 pounds of butter. Taking three pounds of butter home with him for his own use, the elder McSparran was paid 19 cents per pound for the balance, giving him a "net milk check" for the month which totalled up to $11.97.

Don't miss the Agway Oil-Grease Penny Sale where

a penny is a powerhouse

From December thru January

Just 1¢ can buy a quart of oil —even a case!
Just 1¢ can buy a cartridge of grease —even a 10 pack!

You've got plenty of penny power at Agway during the early-order, mid-winter sale Just place your order during the sale dates Take delivery at your convenience (before March 31) *and pay only when you receive your lubricants*

Here's how it works:

Order any oil . . .	and a penny gets you
55-gallon drum	a 24-quart case of the same (or equivalent value)
24-quart case	3 quarts
5-gallon can	2 quarts
2-gallon can	1 quart

Order any grease . . .	and a penny gets you
120-lb drum	10-pack of the same (or equivalent value)
35-lb pail	4 cartridges
10-pack of cartridges	an extra cartridge

Ephrata Jaycees

(Continued from Page 1)

department from one teacher 15 years ago, to four today Last year his dairy judging team took first place at the North American Invitational Contest in Columbus, Ohio

A graduate of Penn State, Ayres credits his interest in agriculture to his farm background and up-bringing near Tyrone, Blair County. He has served as president of the State Vo-Ag Teachers Association (1971-1972) and is presently a member of the youth livestock committee for the Pennsylvania Farm Show. A member of the Ephrata Jaycees, he presided over that organization during 1969-70 when it was rated as the most outstanding Jaycees chapter in Lancaster County.

Beginning his farming enterprises as a young 4-H'er and FFA member, Zartman has continued to expand his business ever since. He farmed in partnership with his father until 1971 when he purchased the elder Zartman's share.

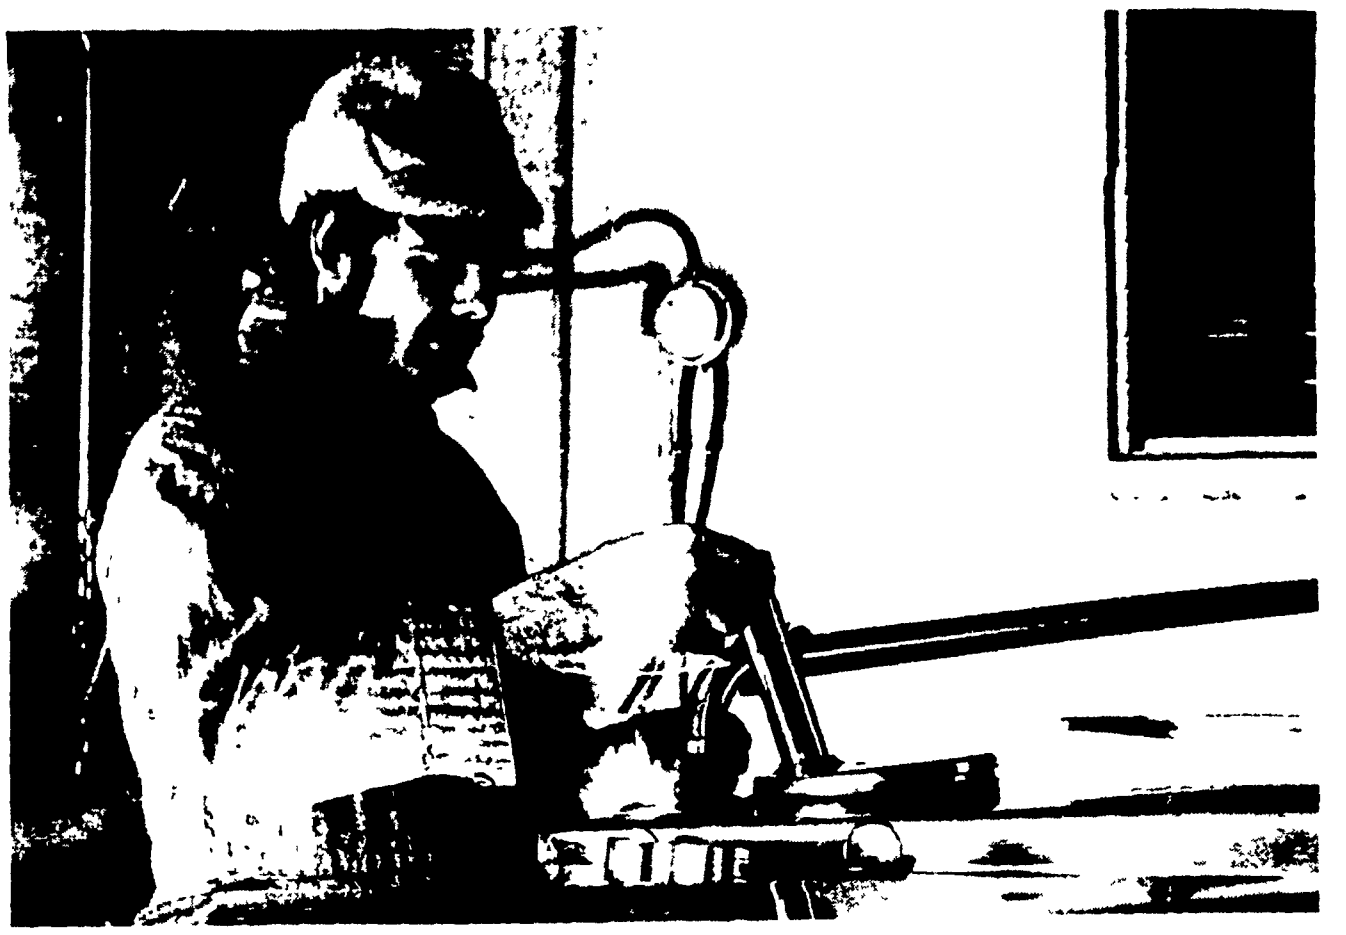
Now farming approximately 250 acres, Zartman and his wife, Barbara, have 120 head of Holsteins - most of which are registered - and also keep a few hogs and steers One of the major reasons he was named "Outstanding Young Farmer" by the Ephrata Jaycees is his innovativeness and efficiency. An example is that he uses the warmth removed from milk by the compressor to heat his milk house

As a youth he was attracted to farming because of his sincere love for animals His initial goals were crop and livestock production with strong emphasis on swine breeding He has been a member of the Lancaster County Swine Producers Association for nine years.

His goals have changed slightly during the past five years, however, in that he's found more interest in dairying and custom combining.

Some of his management programs include a liquid manure system and all-bunker forage storage set-up.

Zartman's future goals include enlarging the dairy operation and custom combining business and doing custom corn drying. He also plans to switch from swine breeding to swine fattening and continue using the original barn for finishing out beef cattle.



Thomas Zartman, Ephrata Jaycees Outstanding Young Farmer, gets things ready in the milk house for milking.

PSU agriculture engineer dies

UNIVERSITY PARK--Burton S. Horne, professor of agricultural engineering extension at The Pennsylvania State University, internationally known specialist in hay harvesting and farm power operation, died January 9 in State College, Pa., at the age of 55.

Horne, a member of the Penn State faculty for 24 years, devoted much of his professional career to organizing field days to demonstrate farm machinery.

He also cooperated with county Extension agents in initiating pasture renovation field days, dealing primarily with soil improvement practices on unproductive land. Through these efforts, about 5,000 acres of poorly-managed pastures received renovation treatment.

Horne was well known by farm machinery manufacturers and farm equipment dealers for his ability to stage the annual Agricultural Progress Days and State Plowing Contest, one of the major events held in the East.

The American Society of Agricultural Engineers awarded him numerous blue ribbons for his Extension publications, slide sets, and demonstration methods. He also was recipient of a Merit Certificate Award from the American Forage and Grassland Council and Pennsylvania Grassland Council Award for his efforts in promoting grassland agriculture.

A fund has been established in Horne's memory to be used for the professional development of students in agricultural mechanization and agricultural engineering.

Those wishing to contribute may send their gifts to The Pennsylvania State University--Burton S. Horne Memorial Fund, Agricultural Engineering Building, University Park, Pa. 16802.

All Contributions for this fund are tax deductible.

"Let us never forget that the cultivation of the earth is the most important labor of man."

Chester DHIA year

(Continued from Page 1)

within the 12,000 pound range for the past eight years and stood at 12,747 a year ago. Another significant fact which comes out of the 1975 summary is that the number of cows on test increased by nearly 400 to its present total of 10,577.

The County's 1975 DHIA butterfat average stands at 504, which is another first - since it was never over 500 before. It had been over 460 for the past eight years and stood at 496 last year. Broken down into categories, 42 of the County's 156 herds on test finished with butterfat averages in the 500 to 549 - pound range. The next largest group was those with 450 to 499 - pound records, which numbered 38. Only one herd came up with less than 349 pounds of more than 700.

Following are the 16 herds which finished the 1975 DHIA year with 600 pounds of butterfat or more:

Jefferson D Yoder, Elverson, registered Holsteins, 54.8 cows, 18,286 pounds of milk, with 719 pounds of butterfat.

Jacob Stoltzfus, 54.8 registered Holsteins, 17,954 pounds of milk with 696 of fat. He's from Oxford RD1.

Earl M. Weir of Cochranville had the high milk production average in the County. His herd statistics read: 33.1 registered Holsteins, 18,373M and 680F.

Robert Pepple, Oxford, 79.8 registered and grade Holsteins, 17,651 pounds of milk with 665 of fat.

Ardrossan Farms, Villanova, topped the Ayrshire field with their 111.9 registered Ayrshires and production of 15,119 pounds of milk and 660 of fat.

John Stoltzfus, Atglen, 56.9 registered Holsteins, 16,289 pounds of milk and 644 of fat.

Paul King, Cochranville, had an average of 16,938 pounds of milk and 639 pounds of butterfat on his 78 registered and grade Holsteins.

Walmoore Farm of Chatham produced an average of 15,616 pounds of milk and 635 fat on their 141.5 registered and grade Holsteins.

David E. Weaver, Glen Moore, 50 registered and grade Holsteins, 17047M. and 634F.

James Yale, Nottimgham, 53.7 registered and grade Holsteins, 15,196M. and 623F.

William Moore, 138.2 registered and grade Holsteins, 15,838M. and 619F.

Elam Petersheim, Morgantown, 69.6 registered Holsteins, 15,819M. and 615F.

Dean Monacy, Coatesville, 16.4 registered and grade Holsteins, 15,969M. and 615F.

Special awards of merit were presented during the Chester DHIA annual meeting and banquet on Thursday night to Jefferson Yoder, second from left, and Earl Weir, right. They had the high butterfat and milk production averages, respectively. Making the presentation to Yoder is the County's DHIA vice president, Harold R. Kulp, while Chester County Dairy Princess, Sandra Evans, looks on.

George Lamborn, Nottingham, 36.4 registered and grade Holsteins, 16,328M and 608F.

Willowland Farm, Atlen, 56.8 registered Holsteins, 15,946M and 606F.

Vernon Ruth, Spring City, 50 registered Holsteins, 14,734 pounds of milk and 606 of fat.

Other herds which finished with more than 15,000 pounds of milk are: J. Elmer Lapp, Cochranville; Ben S. Beiler, Cochranville; Donald Hostetter, Parkesburg; Edgar Miller, Cochranville; J. Harold Bare, Atglen; and Christ Stoltzfus, Honey Brook.

The year-end report concluded that feed costs per cow per year dropped from $534 to $516 and that the value of the milk, after feed costs, increased from $598 to $625.

Fulton Grange meets

Fulton Grange 66 met in regular session recently with Master Thomas C. Galbreath presiding. In keeping with a Bicentennial theme, an explanation was given as to how the 36 star flag signifies the strength of the union through the Civil War.

The program was conducted by Mrs. Laura McSparran, Lecturer. Arba Henry spoke on America as a Nation of Nations, a Land of Plenty, and having Certain Unalienable Rights. Mrs. Mabel Kreider performed a piano solo of American Forever March Song. Several members explained different items they had brought in that were 100-200 years old. The items included tools, books, silver, and furniture.

Mrs. McSparran announced that the next meeting, January 26, will be entitled "Pennsylvania Farm Show Gleanings and Reflections." February 9 will be open house at Fulton Grange and Richard Scott, Mayor of Lancaster, will be the featured speaker. Anyone having old kerosene lamps should bring them to this meeting. The public is invited to attend this open house which starts at 8:00 p.m.

Eby cow recognized

Brattleboro, Vt. - Adding to her first yearly production record exceeding a half ton of butterfat is Pequea Apollo Marie 7373100 (GP) owned by Melvin R. Eby, Gordon.

With her 305-day lactation over the 1,000 lbs. of butterfat mark, she continued to milk for a 354 day record of 27,890 lbs. of milk and 1,073 lbs. of butterfat. "Marie" started her lactation at the age of 5 years 2 months and was milked twice daily.

Pequea Apollo Marie was bred in the Eby. herd and sired by Hilltop Apollo Ivanhoe 1399824 (VG), a bull that has earned Gold Medal Sire recognition.

Pennsylvania State University supervised the weighing and sample testing of her production in cooperation with the Dairy Herd Improvement Registry Program of the Holstein-Friesian Association of America.

I believe in an America of fair prices for the farmer, fair profits for the businessman, fair wages for the worker . . .

J. F. Kennedy

The farmer of the United States does not need new speeches and new spokesmen. They need a new program and new policies and a new approach to the challenge of our farms . . .

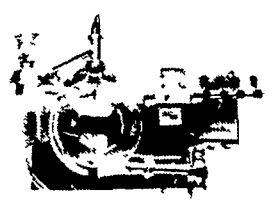
J. F. Kennedy

AGWAY

There's nothing old-fashioned about Sta-Rite stanchion barn pipeline milking.

Modern Sta-Rite dairy equipment makes every milking system better, more efficient, easier on you and your cows. And you can add any of these up-to-date products to your stanchion barn or milking parlor.

The Sta-Rite Full-View Milker permits a constant visual check of milk flow Cuts milking time reduces over milking



Sta Rite s 900 Series Milk house Panel is factory assembled and tested Switches instantly from milk to wash for thorough pipeline cleaning Automatic self drain

The new Sta-Rite Vac-Sav Milk Valve reduces vacuum loss to a minimum Also gives protection against contamination

A Sta Rite Full Vac vacuum pump insures positive vacuum for your milking system

Make pipeline washing completely automatic and Grade A clean with a Sta Rite Full Convenience Pipeline Washer A 24 hour timer lets you pre program all necessary wash rinse and sanitize cycles with fail-safe protection

Sta-Rite . . . a leader in dairy equipment. Whatever the size of your herd, Sta-Rite has the complete automated milking system for you Sta-Rite Stanchion Barn, Full Comfort Parlor, Full Circle, and Reflex Arm Milking Systems will help you milk better, faster and more profitably

German immigrants settle Buckwalter farm

By MELISSA PIPER

SMOKETOWN - One of the oldest family-owned farms in Lancaster County is the Paul Buckwalter homestead located in the countryside near here.

The Buckwalter's have owned the property for almost 230 years, with the original deed having been written by Thomas and Richard Penn, sons of William Penn

The first Buckwalter to own the property was Theodorus Buckwalter (spelled with a "d") who moved to the Lancaster County area from Pheonixville in 1747. Buckwalder's father Francis had been an immigrant from Germany who after surviving much religious persecution, brought his family to America.

Two of Francis' sons moved to the area while the remaining children stayed near Philadelphia and began a successful ironworks business.

The original house built on the 200 acres (original deed) reflected the typical German influence of architecture. It was constructed of stone with decorative shutters and doorways. The house was located over a spring, which provided cooling for the milk and dairy products. The house was torn down in 1900, but not before another dwelling had been constructed near the older house.

The second house or more properly a summer kitchen was built in 1874 with a main living structure being finished in 1875. The two buildings were never joined except for a porch.

Being in very much the same style as many frame type dwellings of the era, the house was square and lacked any detailed design. The doorways however, did lend themselves to European forms as they were low and decorative with glass on the top.

Although a bake oven graced the kitchen area there were no fireplaces in the main rooms. Much of the day was spent in the kitchen area so that the oven warmth was all that was required.

Paul Buckwalter's grandfather was the first to live in the newer house and being a horse doctor, divided the kitchen in half for his office. Along with his medical duties, which took him around the county and among the Amish, Buckwalter carried out general farming on his 200 acres.

A bank barn was raised in 1871 and records indicate that it cost $1000. It was made of white pine which was evidently floated down the Susquehanna as pegs in the planks show where it was tied together for a raft.

Paul Buckwalter was the seventh generation of the family to farm the property. By 1938 it had been reduced to 57 acres and the producer had a generalized farm.

"Even back then we had to have a little of everything to keep going," he explained. "Not many people specialized."

Buckwalter still has 17 milk cows and does the farming although he hires some help in the summer months.

Although the Buckwalter property has been carried on through seven generations, the trend has come to an end as Buckwalter has no male children. Two daughters have provided six grandsons, that might perhaps farm in the future, but the Buckwalter name will soon fade into history as has much of the original land.

Mr. and Mrs. Paul Buckwalter, Smoketown, look over the original deed for their property in Lancaster County. The Buckwalter farm is nearly 230 years old.

Grassland quartet wins state award

Four members of the Grassland FFA Chapter at the Garden Spot High School were recently named as state proficiency award winners at the State Mid-Winter Convention held in Harrisburg.

The quartet included, E. Keith Feister, son of Mr. and Mrs. George Feister, East Earl; Arthur Horst, son of Mr. and Mrs. Leroy Horst, Bowmansville; Ray Martin, son of Mr. and Mrs. Eli W. Martin, New Holland R1 and Lloyd Hoover, son of Mr. and Mrs. Elmer M. Hoover, Leola.

Feister, Keystone farming degree recipient and a 1975 graduate of Garden Spot High School, was a winner in the Horse Production proficiency program. Feister owned his own horse projects during his FFA years and toured the state attending numerous Appaloosa horse shows.

The youth was selected as the Lancaster County Star Agri-businessman and won Foundation medals in Sales and Service. He is currently employed at Hempt Farms of Camp Hill.

In the agricultural processing program, Arthur Horst was selected as the state winner. Horst was selected for his work at the David B. Hurst Feed Mill in Bowmansville. Serving as student advisor for the Grassland Chapter, Horst also participated on the state parliamentary procedure team and several judging teams. He was also a participant in the land judging contest and in tractor driving.

Ray Martin was the state winner in Dairy Production adding the honor to his Keystone Farming Degree and Eastern Region Star Farmer award.

Ray is in partnership with his father and has about 40 dairy animals. He has helped to build structures for the animals as well as select quality cows for the herd.

The youth served as president of the Grassland FFA and was the county vice-president along with being the recipient of the DeKalb Achievement award. Ray is currently a member of the Garden Spot Young Farmers.

Named recipient of the Home and Farmstead Improvement Proficiency Award was Llyod Hoover. Lloyd is currently serving as the state vice-president an office he received after being president of the Grassland Chapter.

Lloyd's award followed many months of working on improvement projects on his parent's farm. His major project was to convert a burned out house trailer into a swine and veal calf barn.

Lloyd has received a number of distinguished awards including honors from Sperry - New Holland and Victor F. Weaver's.

All the youths have received their Keystone Degree Awards - their advisor has been Clifford Day, ag instructor at Garden Spot High School.

ROAST SOYBEANS ON YOUR FARM

For peak feeding value have your soybeans roasted. (To kill toxic enzymes in raw soybeans.)

Plus These Additional Benefits:

1 Roasted soybean (not just cooked), increased digestibility by 15 percent
2 Increased weight gain for beef & hogs
3 Increased butterfat in milk & egg production
4 Improved animal health, reduced vet bill.
5 Eliminates hauling to the mill & back to farm.
6 Feed your own grown grain. (Not exchanged with others)
7 Beans remain whole. Store for months without losing any feeding value

Fruit rot is grower's problem

By MELISSA PIPER

LANCASTER - Although a fresh layer of snow had covered any sign of greenery this week, vegetable growers from the area were already discussing spring planting at a meeting held here on Wednesday.

Sponsored by the Lancaster, York, Dauphin and Lebanon County extension services, the regional vegetable growers meeting featured a slate of speakers from Penn State.

Dr. Peter Ferretti, extension specialist, took the platform during the morning session of the program, discussing strawberries - their production and protection.

Noting that strawberries were a commodity raised in great numbers in the region, Ferretti named weed control as the worst problem associated with the fruit

"I think we need to take a lesson from the corn growers," he explained

"Weed control has become an important part of growing corn just as it has with many fruits - namely strawberries, the better equipped we become to handle weed control the better off we'll be"

Ferretti told the growers that obtaining good plants from the nursery played an important role in harvesting a good crop. "If you get good plants in the beginning, you've won half the battle."

"Look plants over before accepting them and if they don't meet your standards, don't accept them," the vegetables specialist added

Included in his suggestions for more profitable crop harvests, Ferretti reminded the growers to plant early for better production next year.

"The berries planted in June will have a much better harvest the next year," he noted, "those planted in September and October really produce less."

Ferretti also stressed the importance of mulching in the fall. "Mulching really helps a lot because it prevents heaving and frost injury, but it must be done at the proper time." Deer season is usually the time for strawberry mulching but Ferretti explained that the change in color of the plant itself was a much better indicator

The Penn State specialist explained that pH changes in the soil and herbicide reactions also led to problems with the berries and that careful management practices were essential for good plentiful crops.

Relating his feelings on vine fruit pollination, Ferretti spoke on using bee colonies in the fields for an extra amount of pollination.

"Bees can add up to 25 percent more production because of their pollination," he explained. "Especially in lima beans, the bees are quite efficient."

Fruit Rot Discussed

Every grower has experienced problems with fruit rot in both fruit and vegetable production and Dr. Alan McNab, extension plant pathologist from Penn State, was on hand to discuss the problem.

Identifying fruit rot as a fungus related disease, McNab told the growers that management in the fields was an important part of keeping the rot at a minimum.

"The fungus can live only on dead tissues," he noted, "so when frost kills the berries or when moisture builds up the rotting occurs."

McNab told the producers that spacing when planting was important so that overgrowth could not hold in the moisture.

The plant pathologist then turned his talk to the subject of pumpkin growing. "Raising pumpkins is really concentrated in this area and fruit rot is often a problem."

McNab explained that protection against the pumpkin fruit rot was a problem as it was difficult to obtain good spray coverage. "The vines are really too dense to aid in spraying and poor drainage often hurts just as much."

McNab suggested that growers use high resistant pumpkins, (which are the smaller varieties) use fungicides when possible and avoid injuries when harvesting. Also pre-storage curing by heat treatments were offered as a possible help in reducing the disease incidence.

Cabbage Maggot great problem

The Cabbage Rot Maggot received top honors for posing the worst insect problem of 1975, with the award being jointly offered by Dr Robert Tetrault, Penn State extension specialist and John Smith, county agent in York.

"Insects are closely related to the weather conditions," Tetrault noted," and this proved to be an excellent year for the cabbage rot maggot!"

Smith echoed the thought by acknowledging that the insects had presented quite a problem due to the unusually wet season during the past year.

The corn flea bettle received second place on the notorious list of insect problems, although Tetrault noted that they had been "more easy to control even though they came in a healthy second."

Tetrault explained that the cabbage maggot often kills seedling plants by feeding on the roots or severly injuring the roots which results in weak plants. "A seasonal spray program for cabbage and other cole crop insects is the only effective means of keeping plants free from insects," he explained

Tetrault told the growers that a preventive transplanter water treatment is recommended for all plants set in the field however, he cautioned about using wettable powders in the correct manner, "agitation of solutions is necessary to prevent settling out of wetable powders."

Tetrault concluded his portion of the program by giving recommendations for the various herbicides and how they could be handled for better insect protection.

Arnold Lueck, extension agent in Lancaster, served as program chairman for the morning session of the program and discussed the laws concerning pesticide application. Lueck reminded growers that pesticide courses and exams should be taken as soon as possible to abide with the programs set forth in the state.

John Smith, York extension agent, served as the chairman for the afternoon session of the vegetable growers conference. About 100 producers from all over the eastern section of the state were in attendance.

Milk hearing slated

Public hearing sessions beginning February 17 will be held to consider proposed amendments to the New York - New Jersey federal milk marketing order, the U.S. Department of Agriculture announced. The major proposals involve various transportation allowances under the order.

H. L. Forest, dairy official with USDA's Agricultural Marketing Service (AMS), said the Feb. 17 session will begin at 1:30 p.m. in the Hotel Commodore, 42nd St. and Lexington Ave., New York City. An additional session will be held in Syracuse, beginning Feb. 23 at 10:00 a.m. in the Sheraton Inn, N. 7th St. and Electronics Pkwy.

The thrust of the key proposals is three-fold, Forest said. If adopted, individual producers would have to bear more of the farm-to-plant hauling cost. Under the present township (or farm point) pricing — unique to this market — handlers and cooperatives who pick up milk at the farm bear most of this cost.

In addition, the proposals are intended to equalize the cost of milk to all handlers in the market, regardless of their location or whether they obtain their milk on a direct-ship basis or through supply plants.

Also, the proposals would allow distributors in the New York City area to better compete with regulated handlers in the nearby Philadelphia area for fluid milk sales in northern New Jersey.

USDA will evaluate the hearing evidence and decide whether the proposed changes should be made.

Flood control meeting set

Three sponsoring agencies (Manheim Boro Council, Lancaster County Commissioners and the Lancaster County Conservation District) for the Chickes Creek Flood Control will hold a meeting on Monday Jan. 26 at the Farm And Home Center.

The meeting will begin at 7:30 p.m. and will be held in the training room.

JUST ANNOUNCED!

Waiver of finance charges on all NEW John Deere Snowmobiles until Aug. 1, 1976

Three great reasons why a Big John Snowmobile is your best winter weather buy

1. **Dramatic new styling from the skis up.** John Deere introduces a bold new breed of Big John Snowmobiles for 1976. **Liquifire,** a liquid-cooled powerhouse, takes the heat off high-performance trailblazing. And **Cyclone,** a fan-cooled machine, stirs up a storm with race-inspired styling. Both offer features to fire up any snowmobile enthusiast. *Front-mounted 440 or 340cc* reed-valve engine, set low over the skis for superb handling. *Wide 32-inch ski stance* and a longer *"wheelbase" for positive* tracking on hills and switchbacks. *CD ignition* and surface-gap plugs for sure-fire starts. *Disk brakes* for sure-footed stops.

2. **Parts and Service.** Computerized parts location system backed by a crew of experienced mechanics. We service everything we sell.

3. **Exclusive Trail Hazard Track Replacement Policy.** When you buy a John Deere Snowmobile, the track is covered by a limited warranty *and* by a policy that covers areas the limited warranty doesn't. See us now for complete details.

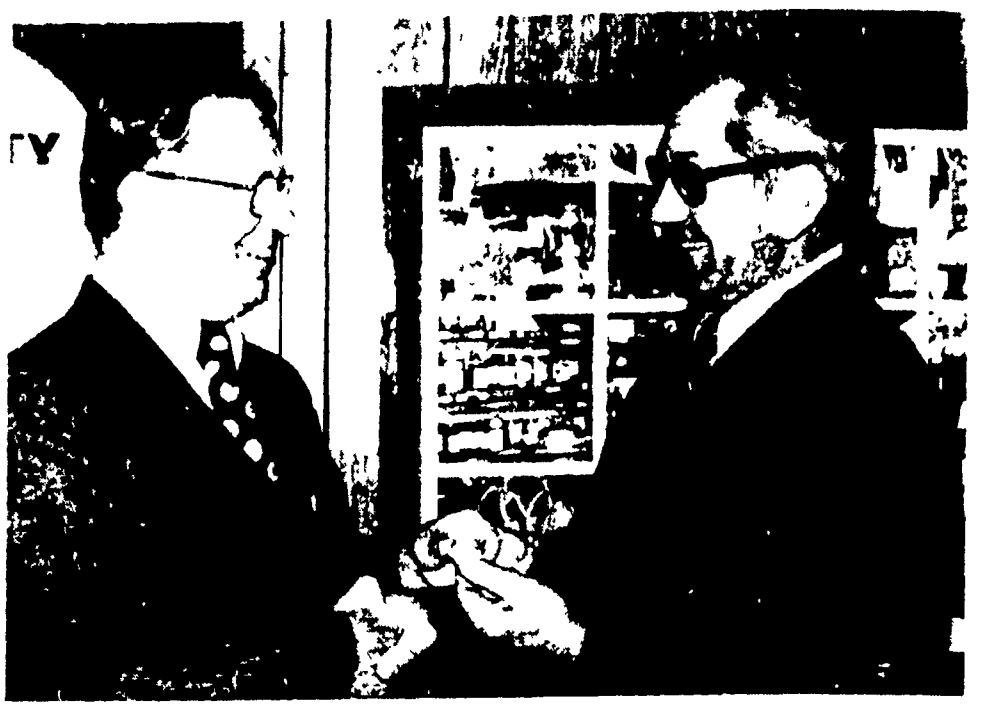
Lancaster Young's nutritionist given 10-year service award

ROARING SPRING - Earl Umble of Lancaster recently received an award marking his ten years of full-time service as a "Man from Young's " in Lancaster County The attractive gold lapel pin was presented to Umble at the 1976 Pennsylvania Farm Show.

Umble represents Young's Inc., a marketer of high-quality mineral-vitamin supplements for livestock. In the field he serves as a ration programmer and feeding consultant offering his services and Young's products to the dairy, beef and swine industry.

Umble has had extensive experience in the dairy industry having been a well-known registered Holstein breeder for many years prior to his joining Young's in 1965.



Russell F. Brown, president of the Roaring Spring based company which manufactures nutritional supplements for livestock.

Earl Umble, right, representative from Young's Inc. for parts of the Garden Spot area, recently received his Ten Year Service Award from

First 4-H beef exhibitor presents 50th banner

By DIETER KRIEG

HARRISBURG — When this year's grand champion 4-H steer was chosen at the Farm Show, the much sought after purple and gold banner was presented to the winner (James Greider of Columbia R2) by the man who exhibited the very first grand champion 4-H steer at the Farm Show 50 years ago.

He is Francis Murren, now 67 years old, of Hanover R4.

The Adams Countian was a member of the first beef club east of the Mississippi River and served as a leader within that organization for more than 20 years after he himself became ineligible for competition. In remembering the show of half a century ago, Murren noted that all of the entries were Hereford steers from Adams County. No other county had a beef club and the number of breeds was rather limited too. Organized by Adams County Agent, Russ Underwood, members of the beef club chose and exhibited animals which best met the criteria set by Penn State's College of Agriculture. That's still the way it's done, basically, but the traits looked for have changed drastically.

The steers of today are much longer, leaner and rangier, says Murren. "Back in '26 you couldn't get a steer too fat, Penn State taught," he remembered. The winning steer he showed was a blocky and fat 1,066-pound Hereford. "I believe the steers we have today will gain faster," he said, adding that he still farms 85 acres and maintains a beef herd consisting of Angus, Herefords, and crossbreds.

This year's show had 140 entries — making the competition and judging anything but easy — while the 1926 version had 49 contestants. Not only has the size of the show grown, the prizes paid have risen considerably too.

Murren sold his grand champion for 25 cents a pound, for a total of $266.50. By comparison, Greider sold his champion for $6.40 per pound for a whopping total of $8,256. Commenting on the prices being paid for champion animals today, Murren says the spread today is too much. He notes that there was only a difference of 12 cents between his high of 25 cents and the average price paid per pound for all of the other steers in the show. Nowadays the champions bring close to six dollars more per pound than animals which didn't place at or near the top. The same holds true for swine and lamb sales. In fact the spread in prices is even more pronounced at those sales. This year, for example, the grand champion market hog was sold for a record-smashing $10 per pound. The reserve grand champion brought $2.70 per pound, with lower placing animals going for close to open market prices.

Murren's point in this is that, generally speaking, and allowing for an exception or two, all of the kids in the contest have worked equally hard and their efforts should be rewarded more evenly.

On best dressed list

York County 4-H members produced the top entries in the 4-H Dressed Capon class at the 60th Farm Show. Roy Thompson of R. 1, East Berlin, who last year produced the Reserve Champion, exhibited the Grand Champion bird at this year's show. Emily Livingston, Davidsburg, Rd., Dover; captured Reserve Champion Honors while her sister, Joyce, had the 3rd place capon.

Other placings were: 5th - Kerry Zinn, Davidsburg Rod, Dover; 6th - Pearl Kneller, R1, Brodbecks; 7th - Wanda Kneller, R1, Brodbecks, and 8th - Lisa Hoover, R1, Mt. Wolf.

3 easy ways to handle sloppy manure

New Idea spreaders offer you a choice of low-cost ways to handle sloppy manure.

Hydraulic Endgate. Fingertip control, uses standard 8" single or double acting cylinder. Hand crank available. Fits all 11 New Idea PTO spreaders.

Pan Attachment. Fits any New Idea single beater spreader. Lowest cost way to handle semi-liquid manure.

Mechanical Endgate. Fits any New Idea cylinder-paddle or flail spreader. Closes with hand crank, opens from tractor seat. Fits sung for loading and hauling.

All New Idea Spreaders are backed by the famous Warranty on Wood in addition to a Full Year Warranty.

Heifer program

(Continued from Page 1)

milking herd sooner than 30 months," he noted

Porter explained that most heifers used in dairy replacement situations were about 30 months of age before being includes in the milking string, when proper handling and feeding could narrow that time to 24 months "We seem to back again at the figures of 1945," he explained

"In the forties a replacement heifer went into the herd at about 30 months and we haven't seen a whole lot of progress, although between the 50's and 60's the figure did narrow to 27 months in some areas"

Stressing that size was an important factor in heifer development, Porter noted that total calf rations were important in early nutritional programs Porter explained that most heifers experience their first estrus cycle near 600 pounds of weight and that feeding for size in relation to age was important to consider

According to studies, regardless of the relative age of the heifer, estrus did occur at about 600 pounds of body weight in a great number of cases

Porter indicated that the dairy herd of the future would need to have three basic objectives for good milk production, namely high genetic capabilities, producing live healthy calves and keeping heifers growing in size for earlier production

The Agway research director, also spoke on costs which affect the dairy farmer. Porter named several factors affecting the cost per hundredweight of milk including feed, cattle, machinery repair along with several other fixed cash costs.

The solution lies not so much in severe restrictions upon our talent to produce as upon proper channeling of our abundance into more effective and expanded uses.

Dr. Gilbert Porter (left) director of research and development for Agway talks with Mark Hess, Lancaster, Agway Zone Manager and Dr. John Porter, director of crop management for Agway. Agway sponsored a program for dairymen held on Tuesday in Lancaster at the Holiday Inn.

Also included on the program was Dr. John Porter, director of crop management for Agway. Porter's topic centered on roughage and forage, the differences and use of each.

Noting that roughage was primarily termed as a bulky material containing a high fiber content with low nutirtional value - while forage contained more nutrients and less fiber, the crops director told the dairymen, "too many times we are feeding roughage when forage is what we really need."

Porter explained that in "tough times" roughage helped out but since more nutritional information was now available, good forage programs were important.

Citing several research programs, Porter noted that the later a forage (alfalfa) is cut the less value it is for feeding.

"Earlier cuttings of alfalfa produce better tonnage," Porter reminded the dairymen. The first cutting (usually around June 1) produced good tonnage with a second cutting occuring around June 15 being of less amounts by about one ton. Research also showed that a third cutting about July 1 lowered the tonnage by two tons per acre.

"There's always that dilemna about attending to the corn or cutting the hay," Porter recognized "You have to look at both crops on a 50-50 basis."

Noting that reduced corn acreage could help both situations by allowing hay to get in on time, the manager explained that good value on each crop could be reached by dealing with both on equal levels.

"If a cutting is done when it should be there is a chance for about 20 percent more portein," Porter noted.

"We need more good forage and less roughage," the manager stressed

Porter also explained that good weed control and fertilization practices would aid in good forage production in the future

Two other speakers featured on the program were Jack Beideman, representing Ciba-Geigy and Wayne Martz from Stauffer Chemical. Both representatives presented slides on various herbicides now available for crops and forages.

The program is an annual event sponsored by Agway. This year's meeting was also sponsored by Stauffer Chemical and Ciba-Geigy. Jack Reed, area farm sales manager, was emcee for the program.

Tractor company gives farmer tribute

"A Tribute to the American Farmer" was held recently at the Spanish Tavern sponsored by Allis Chalmers National Touring Show & Grumelli Farm Service here in Quarryville.

The show was a multi-screen musical, Bi-Centennial salute to the farmer in this country who have played such an important role in the history of the United States.

The show began at 10 o'clock and continued on into the afternoon with a free lunch and What's New With Allis Chalmers Farm Equipment.

Miss Jennifer Vale, professional female product narrator, presented the show to a crowd of about fifty and stated that "there wouldn't be a Bi-Centennial at all if it weren't for the American Farmer."

National FFA officer visits in Lancaster

Doug Loudenslager, Eastern Region National Vice-President from Morral, Ohio, recently spent three and a half days in the Garden Spot of America, Lancaster County, visiting with FFA Chapters, school board members, administrators, guidance people and agribusinessmen.

The National Vice-President, following an appearance at the State Mid-Winter FFA Convention, arrived in New Holland Wednesday evening with State Officers, Lloyd Hoover and Don Weaver, both from Lancaster County. Housing and meals were provided by FFA members and agriculture department personnel.

A very busy schedule for Thursday January 8th was changed due to bad weather, but provided an opportunity to visit with members of the Grassland FFA. Doug was also exposed to the Elementary Agriculture Program and the Hinkltown Alternative Program, both at the Eastern Lancaster County School District. An afternoon visit with Mr. J. Roy Wise, Vice-President of the local School board, and his son Brian, a member of the 9th. grade FFA, completed a most active day.

Transportation for Doug was provided by the State officers, with whom he also stayed. Starting with introductions to the school administrators, guidance people, Doug was then transported to the Ephrata Area where he visited with members of the Cloister FFA chapter. In response to suggestions, Doug then had the opportunity to visit a Vo-Tech school. Brownstown Vo-Tech provided an alternative to the traditional Agriculture programs seen at New Holland and Ephrata. Friday afternoon, a visit to a local agribusiness, Weaver's Poultry in New Holland, concluded the day's activities. While at Weaver's, Doug met with Mr. Victor F. Weaver, a recent recipient of the Honorary Keystone Farmer Degree, and other personnel.

A time of relaxation was scheduled for Saturday and Doug was able to see some of the beautiful historical sights in Lancaster County before he spent the evening with Dr. Robert Herr. He was taken to the airport by the Herr's on Sunday morning for his departure to West Virginia.

During the time that Doug was in the County, he did a great job of selling FFA and Vocational Agriculture. He had opportunities to speak before groups in schools, TV interviews, radio programs, and several newspaper interviews. It is a slight under statement to say that the Easter Region has a "very capable Vice-President".

FULL SEASON HYBRIDS FOR PENNSYLVANIA'S SOUTHEAST

89X SINGLE CROSS — 125 DAYS

Has highest potential yield of any full season hybrid we have tested. 200 bu. yields are not unusual. Ideal ear type on a good stalk. Excellent blight resistance. Fits Southeast Pennsylvania, Maryland and Delaware for maturity as 89X is a full season hybrid. Very upright leaves.

A MOST POPULAR HYBRID, GAINING MANY FRIENDS EACH YEAR!!

8703 3 WAY — 118 DAYS

A Penn State released 3-Way Cross with exceptional yield and standup. Averaged 184.3 bu. dry shelled corn per acre in the 1970 Agronomy Tests in five Southeastern Pa. locations. Percent erect plants - 94.6 percent!! An excellent choice for grain or silage. Very blight resistant.

83X SINGLE CROSS — 118 DAYS

New in '72, this Single Cross Hybrid has gained a large following. Look for a good sized plant, a vigorous grower and yields that compare with the very best. 83X is a fine stander and shows resistance to eastern blights. A good picker-sheller corn.

70X SINGLE CROSS — 110 DAYS

New in 1973, 70X is already Doebler's most popular 700 maturity hybrid. Expect high yields, fast dry down and a hard cob for picker shelling. Fits especially well as an early corn in full season areas. Has dark green, rank appearance.

LATEST TEST RESULTS — 70X in the just released 1975 Pa. Extension tests was 10 bu. better than the average of the 25 hybrids tested in its maturity groups!! (157.1 bu. dry shelled corn per acre).

SOLD BY 250 DEALERS IN PENNA. NEW YORK, MARYLAND & DELAWARE.

800 - 3-WAY - 115 DAYS

New in '73, 800 3-way is outstanding in yield, standup and tolerance to thick planting and drought. Yields of 200 bu. dry shelled corn have been reached. Look for a close attached ear of substantial length and girth.

LATEST TEST RESULTS — 800 - 3-way in the just released 1975 Pa. Extension tests was 12 bu. better than the average of the 36 full season hybrids tested!! (175.2 bu. dry shelled corn per acre).

DOEBLER'S 790 3-WAY - 112 DAYS

A new 3-way released for '75 planting — 790-3 has been outstanding in both yield and stand-up.

An upright leaf hybrid that can be planted thick. Drought tolerance especially good. Strip tests in 1975 yielded up to 190 bu. dry shelled corn per acre.

Mount Joy farmers

Continued from Page 1

- and particularly Phillies fans - a sneak preview of the 1976 season. Garber said the the Phillies of the "Bicentennial City" could win the pennant during this "Bicentennial Year" if the team stays healthy. He praised team members as well as the managerial and coaching staff, concluding that only team injuries could keep the Phillies from having a very good year.

Lehigh Cooperative president, Robert Barry, gave a projection on milk prices for the first half of 1976, which he described as being "very good." Going into more detail, the newly elected head of Lehigh announced that the base price for last month was $10.50 per hundredweight and that the January price will be up some more. February and March prices are expected to be in the same ballpark as those which were paid during November of last year. After that the prices will follow the usual "Spring slide" although "they will never be in any way comparable to corresponding months last year," Barry said. He explained that the higher bottoms which went into effect last October will prevent that from happening.

Mount Joy Farmers Cooperative, which has members in an area encompassing southern Lebanon and northeast Lancaster Counties, shipped 50-million pounds of milk to Lehigh during 1975, Stoudt said in his remarks. Three-quarters of that amount was delivered to Order 4 Class I markets via the cooperative's Lansdale plant. The remainder went the manufacturing route by way of the Allentown plant. The year behind us was described as having been a good one for members of the Mount Joy Farmers Cooperative, and 1976 is expected to be better yet, Hostetter said in his talk. Lehigh Valley will again receive the Cooperative's milk, and a contract to that effect is due to be signed any day.

The Mount Joy Cooperative announced that it experienced sizable savings during the past year and members received checks amounting to 40 percent of those savings, treasurer Henry Garber announced. This percentage figure is twice as high as that the law requires, it was noted.

James Greider, who showed the grand champion steer at the farm Show last month, was on hand to cite what he believes are important points to consider in winning the grand champion title. "Exercise is most important," he began, adding that he walked his animal for at least two miles every day, and often four miles. This taught the animal how to lead, and firmed his muscles considerably. Attitude also ranks high; Greider said you have to think positive when you're presenting yourself and your animal in the ring. The feeding program hinges not only on amounts and ingredients, but also on a schedule, he revealed. But the 19-year-old youth from Columbia who farms with his father (C. Robert) and two brothers, wasn't about to take all the credit himself. He said his brother Jeff fitted the animal and helped in getting him accustomed to a judge's appraisal techniques.

In other activities at the meeting, Associate County Agent Alan Bair announced that a DHIA workshop is slated to take place at the Farm and Home Center on Feb. 5 and the County's Dairy Day is March 2. Offering a remark on the concept of cooperatives, he noted that the accent should be on "we" not "they."

The top twelve milk producers within the Mount Joy Cooperative were recognized. They are in order: Paul and Elvin Kreider; Harold, Donald and Brian Risser; Joe Wivell; Robert Greider; Louis and Jay Bixler; Jay Nissley; Marvin and Roy Alger; Elam Bollinger; Lloyd Moyer; Leon Musser; Ken Miller; and Harry Garber and Sons.

The top 15 with lowest bacteria counts were also recognized.

In concluding remarks, dairymen were cautioned against having teat dips freeze since the solution would break down and turn to an acid which would cause problems.

NFU exposes land scandal

The authoritative San Francisco Examiner, one of the major West Coast newspapers, has joined in the expose of the Westlands Water District scandal, launched last summer by Farmers Union publications. On Sunday, Jan. 11, the Examiner began publication of a 7-installment series on what it termed the "$2 billion giveaway".

The copyrighted series, by Examiner staff members Lynn Ludlow and Will Hearst, labels the Westlands project " a huge federal project to bring water to family farms which became a gold mine for corporate landholders."

"Not since Teapot Dome's oil lease giveaways have public resources been exploited so flagrantly - with the active aid of government officials - for private gain" said the Examiner article.

Ludlow and Hearst point out that "By now, with more than 100,000 acres sold off during the first decade of reclamation, 300 to 600 owner-operated farms of 160 acres or less should have been started in the Westlands area."

But, actually, there are only two family farms and "Westlands remains corporate country with huge farming operations, vast fields and big tax advantages.

"Missing from the flat landscape are barns, chicken coops, 4-H Clubs, silos, kids with fishing poles and inhabitants," said Ludlow and Hearst.

Farmers Union publications blew the whistle on the land grab in late July following testimony before a Senate committee by David M. Weiman, NFU legislative assistant, in which he described the tactics used by off-farm corporations to buy up the land through "paper farmers" and syndication.

(Reprinted from the National Farmers Union's Washington Newsletter.)

Cattle Feeder's Day scheduled for Jan. 27

The Lancaster County Cattle Feeder's Day is scheduled for Tuesday, January 27, in the Auditorium of the Farm and Home Center, 1383 Arcadia Road, Lancaster. This all-day program will include the following:

9:00 a.m. - Coffee - Doughnuts - Inspect Exhibits.

9:30 a.m. - "Improved Livestock Marketing - Outlook" by Louis Moore, Extension Economist, Penn State University

10:30 a.m. - "Good Equipment Makes Money" by Dr. Lester Burdette, Livestock Specialist, Penn State University.

11:15 a.m. - "Silage Crops For Beef Production" by Dr. John Baylor, Agronomy Specialist, Penn State University.

12:00 noon - Lunch (Light lunch available: $2.00 each)

1:30 p.m. - "Reducing Production Costs" by Dr. Lester Burdette.

2:30 p.m. - "Livestock Waste - Valuable?" by Dr. Wayne Hinish, Agronomy Specialist, Penn State University.

3:00 - Questions, Discussion, Adjournment. Exhibits And Displays of various cattle feeding products and equipment will be on hand for your inspection and comparison. You will have an opportunity to observe these products and discuss their place in modern beef production.

Del. dairy day set

The annual Delaware Dairy Day meeting has been set for Wednesday, January 28, at the Camden-Wyoming Fire Hall, according to Dr. W. R. Hesseltine, program chairman The event begins at 10 a m

Topics of interest on the morning program include "Inputs to High Production Efficiency," a talk by Dr. Darwin Braund of Agway, and "The Meaning and Use of USDA-DHIA Sire Data" by Dr. Frank Dickinson of the DHIA Division, USDA

At noon, a buffet lunch will be served by the Women's Auxiliary at the fire hall The cost will be $4.00.

The afternoon's program includes a talk by Professor William S. Gaunya, "The Miracles of Milk Secretion and Mastitis Prevention," and "How It All Works at Kilby's, Inc.," by William Kilby, dairyman.

Two door prizes will be given, one a free DHIA test.

For more information, dairymen can call W. R. Hesseltine at the University of Delaware, Department of Animal Science, at 738-2523

Wenger seeking office

Noah W. Wenger, a farmer from Stevens R1, on Wednesday announced he is a Republican candidate for the State House seat from the 99th District which is currently being held by the retiring Harry Gring.

Wenger, 41, operates a 107-acre livestock and poultry farm in West Cocalico Township and is a past president of the Lancaster County Farmers Association. Aside from all of his responsibilities on the farm, he also served on the Governor's Advisory Committee on Solid Waste Management and is a member of the Cocalico School Authority.

In 1970 he served as treasurer of the Pennsylvania Farmers for Hugh Scott Committee in the successful campaign to re-elect the Senator to the U S Senate. He has presided over numerous committees in both civic and agricultural circles and is a member of the following groups. Pa Farmers Association, Pa Poultry Federation, Northeastern Poultry Producers Council, Stevens Fire Company, Schoeneck Fire Company, and the Evangel Assembly of God Church at Ephrata. In 1975 U.S. Secretary of Agriculture Earl Butz, appointed him to be chairman of the A.S.C.S. office, with which he has been affiliated since 1972.

Married to the former Barbara Bundrick, Wenger is the father of three teen-aged daughters.

TRIVIA

Vermont

Vermont is one of the smallest states in the Union—43rd in size, 47th in population Lake Champlain forms about half the state's western border The first permanent settlement, Fort Dummer, was founded by English colonists from Massachusetts in 1724, Vermont, in 1791, became the first state after the original 13 colonies to be admitted into the Union

Cat show slated

Make plans now to attend the 5th annual cat show sponsored by the Greater York Feline Society, to be held January 31st and February 1st The place to be is the Memorial Hall at the York Fairgrounds From 10 a.m to 5p m you'll have a chance to view over 400 cats Breeds represented include Birman, Abyssian, Burmese, Exotic short hair, Rex, Himalayan, and a newly developed breed, the Scottish Folk. Pick your favorites! But the cats will be judged officially by Stan Barnaby of Wisconsin, Mrs Loretta Baugh of Michigan, William Beck and Walt Friend of Maryland, Mrs. Edna Field of Ontario, and Robert Smith of California. They will be studying body and head shape, physical condition, eye color, and color and texture of the coat.

In addition to the pedigrees contending for awards, household pets will be competing for the prestigious Morris Award.

The proceeds of the cat show are being donated to the York County S.P.C.A.

How Big Is BIG MONEY?

To some people it is commissions of $1,000 a Month. To others $2,000 and more a Month, right in their own home town. - We have both kinds - selling village and country property; our $pecialty.

So it's Opportunity if you qualify for the STROUT Team. Not everybody does. But ask yourself — Are you ready for your License to bring you Important Money? Ask too, do you really like People? And do you have Common Sense?

If yes, then get our information on the "People-Business." It's mailed without obligation. Could be your Big Money start — with the Greatest Team IN Earth.

R. B. Schrack, Manager

IF YOU WERE A DAIRY COW, YOU'D WANT ALL THE ENERGY YOU COULD GET.

YOU'D WANT DENSITY PLUS™

Even with consumption at its peak, your cows might still be able to increase production. It could be all they need is a little more energy. Research shows that energy is just as important to your herd as protein.

Your cows can get the energy they need with Density Plus from Master Mix® Density Plus packs more energy per ounce than ordinary dairy feeds and also contains the vitamins and minerals your cows need to stay in peak condition.

Add up all the advantages of Density Plus and you'll get more milk, more butter fat, more efficient production — all at a lower production cost.

If you were a cow, you'd want "energy-plus." You'd want Density Plus.

GREATER PROFITS

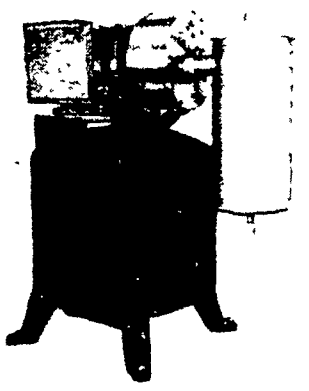
DID YOU EVER WISH FOR BETTER MILKING?

WHAT IS BETTER MILKING?

★ Better Milking means healthier udders
★ Better Milking means a better let down
★ Better Milking means a better milkout
★ Better Milking means higher butterfat test
★ Better Milking means more gentle milking at teat end
★ Better Milking means a Vented stretch Bore Liner
★ Better Milking means alternating pulsation for better massaging
★ Better Milking means a Lower Vacuum

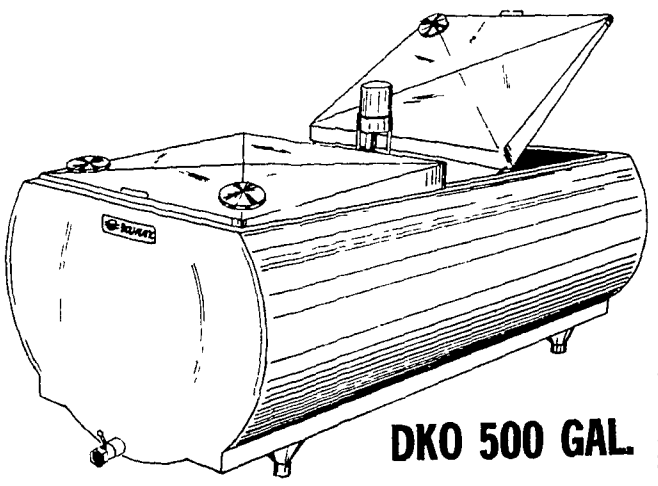
Better milking means more Profit which is yours.

JUST THE VACUUM PUMP YOU ARE LOOKING FOR



- no oilers
- no wicks
- no vanes
- no belts
- no pulleys
- no bearings
- no tank filter
- no pollution of oil fumes

Just one moving part produces steady quiet pressure or vacuum by water action alone.
A Guarantee of Trouble-Free Operation
Sizes from 40CFM-300CFM
YOU MUST SEE IT TO APPRECIATE IT



DKO 500 GAL.

This is what Bou-Matic will do for you.

Give us a call or drop us a line we will be glad to have our Salesman give you a Demonstration on Better milking.

Lime Hollow Admiral DeKol is a big strong bull. He is a son of Irvington Pride Admiral (Ex. 92-GM) and a maternal grandson of Burkgov Inka DeKol, well known foundation sire of the Holstein breed. **Admiral** can be used as a "Strength" bull but also sires the same udder quality that made his sire "Pride Admiral" so popular. We like the Admiral daughters and we are sure you will too! **Call in your semen order today!**

THE **HARVESTORE** FAMILY

CONGRATULATES

THE
C. ROBERT GREIDER FAMILY
FOR
1976 PA. FARM SHOW GRAND CHAMPION STEER

"HARVESTORE FARMING SINCE 1966"

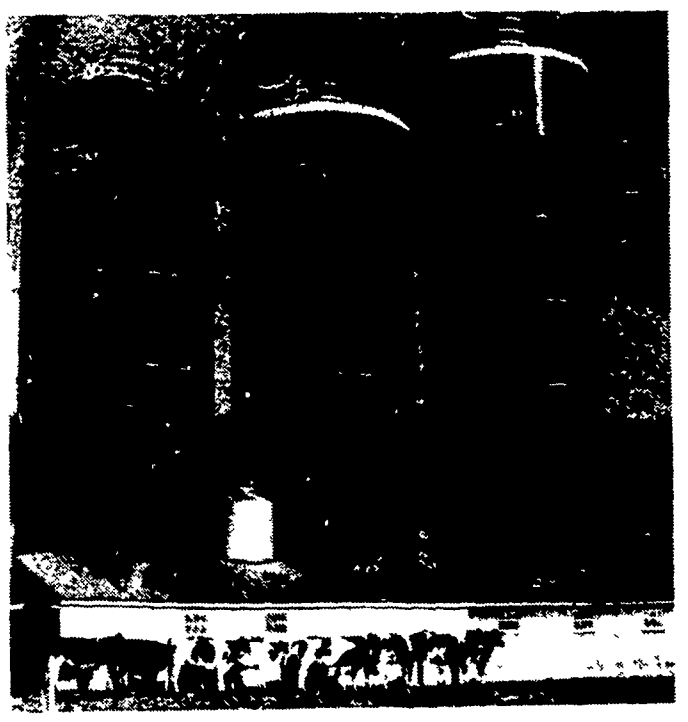
We extend our congratulations to the C. Robert Greider family, Columbia RD2, and to 19-year-old James in particular, for showing the grand champion 4-H steer at the Farm Show this year.

Greider's steer, which brought a record $6.40 per pound, was fed with HARVESTORE high moisture corn, and HARVESTORE haylage, along with some oats and supplements.

An Angus-Chianini crossbred, "Norman" weighed in at 1,290 pounds when he was brought into the sale ring.

Greider and his three sons, Jim, Jeff, and Greg, operate a 250-acre dairy farm with 75 head of milking Holsteins. They have been HARVESTORE FARMERS since 1966 and presently own a 20 x 70 and two - 20 x 60 Harvestores.

'THE CHAMPIONS' left to right, are: Jeff, C. Robert, Jim, and Greg Greider.



The first of the Greiders' "blue towers" was erected in 1966. They have a 20 by 70 and two 20 by 60's.

AGWAY

Grow-Power Service is the fast, easy, labor-saving way to apply supplemental nitrogen and certain pesticides. No product to handle No equipment needed. No time lost And you buy only the actual amount of nitrogen you need per acre

For two-in-one economy, Grow-Power Service can handle Agway Nitan nitrogen plus certain herbicides for a twice-over job in a single trip. Use your own pesticide or ask Agway to provide it for you.

Put Agway Grow-Power Service to work for you this spring

Here are some of the ways it can help save you time and boost crop production Use it to.

- Topdress Agway Nitan on oats and other small grains in early spring for maximum crop response
- Meet the nitrogen needs of your corn crop and add weed-killing clout if you wish
- Knock out broadleaf weed competition in spring-seeded alfalfa stands, oats and other small grains
- Gain fast control of alfalfa insect pests to help you cut more protein per acre

Whatever the need, your Agway man will help make sure the product is right for the job; and right for the weed spectrum on each field, utilizing the herbicide or combination of herbicides that will meet your management requirements.

Most Agway stores are equipped to provide you with Agway Grow-Power Service. But seasonal demands are heavy and careful scheduling is required. If you haven't already completed your application plans, call Agway now to see how time-saving, labor-saving Grow-Power Service can help you this spring.

Homestead Notes

Seed business flourishes in midst of winter weather

The Rohrer Seed Company is still a family based operation. Shown in the seed department are (from left) Luke, Mary, Clarence and Peter Rohrer.

A set of old brass scales are still used to measure and weigh odd shaped seeds.

A German made machine easily weighs seeds for packaging.

Lancaster Farming
Feature Writer

If you have started to page through the 1976 garden seed catalogues or placed orders or even gone to a store to purchase flower and vegetable seeds, you are keeping in time with a trend developing in the last few years of buying seeds early.

Clarence Rohrer of P. L. Rohrer and Bro., Inc. Smoketown, has seen his peak selling time edge closer to the beginning of the year for the last several years. At one time, the local customers came into the store in April and May. The peak walk-in crowd comes in February and March now, according to Clarence Rohrer. Many request catalogues and seeds as early as January.

P. L. Rohrer and Bro., Inc., as well as many other seed dealers - has been supplying customers with garden and farm seeds since 1917. During those 59 years, many changes in processing, distribution, quality controls and costs have evolved. Accompanying these changes has been a growing demand for more varieties from more customers.

According to a 1927 catalogue, an ounce of carrot seeds costs 10 cents. Today that ounce will cost $1.20. A pound of lawn seed sold in 1927 for 50 cents - today it sells for $1.60 a pound.

In addition to the price changes on the packages, the weight markings have also changed. By a government regulation, every packet weighing less than one-half of a pound must also carry the metric equivalent weight in grams.

"Most customers don't really care how many grams of beet seeds they have," said Rohrer. "They only want to know how much room they take up in the pack and how long a row they will make," he added.

Each seed packet also shows the year for which the seeds have been grown to be planted. Germination tests are run on all seed types every nine months even if they have been placed in stores. If the germination percentage for a certain sample drops sufficiently, the supplier must recall all those seeds in that particular harvest.

"Occasionally," Clarence Rohrer said, "the seeds are recalled before he receives them." If the nine-month term is expiring and there is not enough time to receive results from the supplier's test, P. L. Rohrer runs its own germination test to assure quality.

"The practice of saving left-over seeds for another year usually results in a 10 percent loss in germination for beans and corn and a much higher percentage in fine seeds such as beets," the seed dealer explained.

"Trying to save seeds produced from hybrid seeds will not work," Mr. Rohrer added. Many novice gardeners try this procedure but are surprised and disappointed by the next year's produce which does not have hybrid qualities.

"Hybrid varieties have developed in the past few years and have become very popular even though expensive," said Rohrer. The cross-pollination procedures required to develop these seeds are very expensive. "That is why a pound of Burpee's Hybrid Cantaloupe seeds costs $105.00 and a pound of Burpee's Hybrid Big Boy Tomatoes costs $560.00 or $35 an ounce," he noted.

When asked if he noticed any changes or demand for certain kinds of vegetables, Clarence Rohrer said two years ago the store did not stock pole lima beans. "Customers asked for them so we have a good supply now," said Rohrer. With the increased popularity of small gardens, pole limas have been in demand because they produce more than bush beans given the same space, Rohrer explained.

Clarence Rohrer recalled a 300 percent increase in sales the year of the Victory Garden, but the next year the sales dropped back to the normal of two years before. However, he feels the recent interest in home gardening will continue and that this year should prove to be a leveling-off year. "As produce prices remain high in the market and in the store, people will continue to grow their own vegetables," Rohrer added.

P. L. Rohrer and Bro., Inc., sells approximately 125,000 pounds of garden seeds annually. Because of recent increases in sales, methods of weighing and packaging the seeds have changed. At one time the seeds were hand-weighed on scales, then packaged. Now many varieties of seeds are weighed and packaged by a German-made machine.

Onion sets and large seeds such as watermelon and small seeds like beets and spinach are still hand-weighed by the Rohrer brothers - Clarence, Luke, and Peter and their sister, Mary, along with several other workers.

P. L. Rohrer and Bro. fill orders from 75 stores and markets in the surrounding area and nearly 150 catalogue orders a day during the peak months. Catalogues are mailed to past customers upon request. Even so, orders are placed from all over the nation, remarked Clarence Rohrer. Many former Lancaster countians who have moved to Florida or Alabama, for instance, often request catalogues before they come out the week after the Farm Show because they are in a growing season there, added Rohrer. A vegetable often requested from the South which is very popular in the Dutch Country is the sugar pea, reported Mr. Rohrer.

Eighty-five percent of the Rohrer business, still carried out in the building used 59 years ago, is with Pennsylvania customers, Mr. Rohrer said.

If you have not gotten your seeds yet, take a number and patiently wait your turn to have your order filled. Next year, order a little earlier - the week before Christmas perhaps!

News reporter wanted for the Berks County area. Farm background and writing experience helpful. Local travel required. For further information contact Lancaster Farming by writing to: News Correspondent - Lancaster Farming, 22 E. Main St., Lititz, PA 17543.

Country Corner

Barns have offered more than protection

By MELISSA PIPER

One of our readers recently commented on the importance of farm buildings, especially with the high cost of equipment and livestock today As I reflected on those thoughts, I whole heartedly agreed as machinery rusting in the fields certainly seems like an inefficient way to spend farm dollars.

But, barns - especially the older ones - often took on more meaning than just being a shelter of strong beams, mortar and stone Barns have lent personal touch to the farms themselves and have often served as a landmark in the area

The barn which originally came with our family farm, was a large structure with a solid wood frame based on stones and home-mixed mortar Architecturally, it was quite similar to many other bank barns with stables below and storage on the second level

But, while the barn was just one of many buildings on the farm, it was included in many activities in our lives Of course the structure protected the machinery but it also held my sister's bike, our three rabbits, several friendly sheep, odds and ends of furniture and even our chickens (which had their own private roosts.)

The old barnyard area, which once housed the work horses, had become a place to pitch horseshoes and the corn crib had been made into a home for our collie's seven puppies

The empty portions of the machinery shed were utilized as a playroom for many a rainy Sunday afternoon and the haymow was a haven to pout undisturbed.

It was also a place for business - selling livestock, unloading feed and shearing the sheep. The whole business of farming and everyday life stemmed from under it's great roof and numerous sheds.

The old barn is gone now. It collapsed under a heavy wet snow several years ago this month. And since that time, a new more modern structure has taken its place. But even now when I return home and walk to our newer barn, I can't help stopping where the old barn once stood. Only a few stones of the foundation are still in place and the brambles have covered the dirt floors, but it still brings back a lot of memories of many hours spent inside its protective frame.

Ladies Have You Heard?

By Doris Thomas

Lancaster Home Economist

Homemaking Role Can Be Satisfying

If the full-time homemaker role has gotten you down, you may be tempted to get a job or go back to school. But before you jump into a new role, assess your current situation.

Full-time homemaking and parenting may not be the problem at all. Instead, the real culprit may be how you are handling the homemaking role. You need to define your homemaking role with care. A re-evaluation may leave you feeling better about yourself. By assessing your role, you may feel new freedom — and that can help reduce stress and give you a healthier view about yourself.

Begin by re-evaluating your present way of handling your job. How do you control the demands on your time? A flexible schedule for routine jobs can provide order and give you feelings of completion and satisfaction. Try to set aside specific times for certain jobs.

Take a look at your housekeeping standards. Perhaps you are trying to do too much. Don't punish yourself by trying to keep house as well as some relatives or neighbors. Another's values may focus on material things while yours may focus on people. Perhaps your family seems more comfortable in a home with that "lived-in" look. This may be an especially useful philosophy for the mother of young children.

Your standards need to be adjusted to your family. If you have small children, you shouldn't try to keep a spotless house. If your husband likes to do things with you outside the home, forget the house — it will wait.

Give yourself rewards for a job well done — something like a raise or promotion in the business world. For example, take an afternoon off occasionally to do something you really want to do.

Concentrate your efforts on jobs that leave you feeling satisfied — and change or control the undesirable tasks. For example, if you don't like cooking specialize in quick-to-prepare nutritious meals.

When you've tried these suggestions, assess your feelings. Do you feel better about being full-time homemaker? If so, you may decide you really want to stay right where you are.

If this doesn't work, you may be justified in finding new ways to fulfill yourself. But you need to evaluate these alternatives, too. If some bright new job prospect seems to be beckoning, consider how you would feel if you were trapped in it and you didn't like it.

How To Clean Your Dishwasher

The automatic dishwasher usually self-cleans its tub, pount our Extension home management specialists at The Pennsylvania State University.

However, in hard water areas, a white film in the tub from water hardness minerals may need to be removed occasionally by wiping with a damp cloth and a milk cleansing powder.

Check frequently for any sediment or objects found in the bottom of the tub and remove.

To clean the enamel exterior of the dishwasher, wipe with a warm, damp, sudsy cloth. Rinse and wipe dry.

Keep the brushed satin-chrome trim bright by washing with a solution of two tablespoons packaged water softener dissolved in warm water. Dry with soft cloth.

If you have a wood cutting board on the top of the dishwasher, wash it with a sudsy cloth and rinse with clear water. To keep it in good condition, rub in a light coat of mineral oil.

Reduced registration fees for elderly explained

HARRISBURG - Because of confusion and misunderstanding from the new law giving discount registration to retired motorists, acting Transportation Secretary George S. Pulakos on Tuesday issued guidelines explaining who is eligible for the reduced fee.

According to Pulakos, to be eligible a person must:

-Be retired and receiving Social Security or other pension. Part-time work is permitted.

-Total income from all sources, including Social Security, pension, part-time work, interest and dividends must not exceed $7,500. Income is based on anticipated income for the present year.

-If only one spouse of a married couple qualifies, the discount registered vehicle must be registered in his or her name.

-If both spouses qualify, they may each register a vehicle at the reduced rate.

-If the vehicle is jointly owned, (title in both names), total income of the couple must not exceed $7,500.

-Only one vehicle per retired person may be registered at the lower rate.

-Any vehicle weighing less than 9,000 pounds including cars, station wagons and light trucks may be registered at the discount rate.

-Retired persons are not exempt from normal title and transfer fees.

-There is no minimum age requirement.

Pulakos said that persons wishing to register a vehicle at the reduced fee should get an application from the Bureau of Motor Vehicles, fill it out, sign it and return it along with their regular registration renewal application to the Bureau of Motor Vehicles. A check for $10 instead of the regular fee should be enclosed.

Applications for the reduced fee are available at the Philadelphia branch office of the Bureau of Motor Vehicles, Roosevelt Blvd. and Southampton Rd., at the Pittsburgh office, 300 Liberty Ave., or by writing: Bureau of Motor Vehicles, Harrisburg, Pa. 17122.

Population decline slowed

The U.S. farm population continues to decline. but, at 9,264,000 in 1974, it was down only 4.6 percent from 1970, according to a USDA Economic Research Service report issued last week. That's an average decline of only 1.2 percent annually — in sharp contrast to the average yearly decline of 4.8 percent for the 1960's.

Sharpest declines from 1970 were in the South, down 10.8 percent; and the Northeast, down 6.3 percent. The decline in the North Central States was 2.7

Egg forecast printed

WASHINGTON — Demand for eggs in the second half of calendar 1976 may be about the same as a year earlier. This view is contained in the U.S. Department of Agriculture (USDA) publications "Egg Marketing Facts — Second Half 1976" to be released later this month. The publication is designed to help producers tailor production to consumer needs.

As stated in the report, other prospects concerning the egg industry during the second half of 1976 include:

- Costs of producing eggs will hinge largely on the prospects for and outcome of the 1976 corn and soybean crops and foreign trade developments. These crops supply the major feed ingredients and are used in large quantities by the egg industry Other production costs, as well as those for processing and marketing, will be higher

- Although the size of the laying flock during the first quarter of 1976 may move slightly above year-ago levels, a higher rate of culling and less forced molting would reduce the flock below a year earlier by midyear. If forced molting is reduced to 1974 rates, a larger hatch of replacement pullets during the first half of 1976 than in January-June 1975 would be necessary to maintain a laying flock in July-December 1976 as large as the same period a year earlier.

Egg Marketing Facts are developed semiannually by the Poultry Division of USDA's Agricultural Marketing Service and approved by USDA's Outlook and Situation Board Copies of this issue will be available from the Information Division, AMS, USDA, Washington, D.C. 20250.

I am glad that surplus is our problem and not starvation.

Home on the Range

We have several good and unique recipes to share with you this week! One reader from Ephrata sent in a recipe for a chocolate cake - ordinary cake - by no means. The recipe is 100 years old. Unfortunately, the reader did not include her name on the recipe so we couldn't give her just credit for the cake.

In response to our requests, we received two recipes for pickled string beans and one for a sugarless dessert.

One reader is interested in having a recipe for "granola cereal." If you have one we would enjoy sharing it with other readers.

Do you have any recipes from the early 18th and 19th centuries? If so, why not share a portion of the era gone by with other L. F. readers. We'll enjoy printing old recipes and comparing them to today's way of cooking.

xxx

Chocolate Cake
100 Year old recipe

3 cups brown sugar
3 eggs
½ cup lard
¾ cups cold water
¾ cup thick milk
2¾ cup flour
½ teaspoon salt
1 teaspoon soda
1 teaspoon vanilla

Combine ingredients and bake at 350 degrees for 30 minutes.

Ephrata reader

xxx

Pickled String Beans

3 quarts string beans
2 tablespoons salt
3 cups sugar
3 cups vinegar
1 teaspoon ground mustard
1 tsp. celery seed
1 teaspoon tumeric
¼ cup flour

Cut beans into 1 inch pieces. Cook in salt water until tender, but not soft. Combine sugar, salt, flour and spices with the vinegar. Cook together until slightly thickened. Add beans and bring to a boil. Put into jars and seal.

Lucy N. Martin
Fleetwood, Pa.

xxx

Potato Puffs

1 cup left over mashed potatoes
1-2 beaten eggs
¼ cup flour
1 teaspoon baking powder

Mix all together and drop by ½ teaspoonfuls into hot fat. Fry till brown on both sides.

Mrs. Daniel Lapp
Ronks, Pa.

xxx

Sour String Beans

2 quarts cooked string beans
¾ cup vinegar
¾ cup water
¾ cup brown sugar
1 teaspoon salt
¼ teaspoon pepper

Cut the cooked beans into inch lengths. Make a syrup of the vinegar water sugar and salt. Pour over beans and bring to biol. Serve. Two quarts if canned.

Mrs. Mary Snyder
Sunbury, Pa.

xxx

Fudge Nut Bars

1 cup butter or margarine
2 cups light brown sugar, packed
2 eggs
2 teaspoons vanilla
2½ cups sifted flour
1 teaspoon baking soda
1 teaspoon salt
3 cups quick cooking rolled oats
1 (12 ounce) package chocolate bits
1 cup sweetened condensed milk
2 tablespoons butter
1 teaspoon salt
1 cup chopped nuts
2 teaspoons vanilla

Cream together 1 cup butter and sugar. Mix in eggs and 2 teaspoons vanilla. Sift together flour, soda and 1 teaspoon salt. Stir in rolled oats. Add dry ingredients to creamed mixture. Set aside while you make filling.

In a sauce pan over boiling water, mix together chocolate bits, milk, 2 tablespoons butter and ½ teaspoon salt. Stir until chocolate melts. Remove from heat and stir in nuts and vanilla.

Spread about two-thirds mixture of cookie dough in bottom of greased jelly roll pan. Cover with fudge dot with remainder of cookie dough. Bake at 350 degrees for 30 minutes. Cool and cut in bars.

Mrs. Wilmer Stoltzfus
Leola, Pa.

xxx

Sugarless Dessert

1 can diet peaches or apricots
1 pkg. vanilla (or butterscotch) diet pudding
½ cup dried milk
one-third cup ice water
1 teaspoon vanilla
Artificial sweetener.

In blender, mix the fruit and pudding till pureed. (fruit could be put through colander). Bring to a boil, stirring constantly, and cook till thickened. Cool well.

On high speed mix the dried milk and the ice water and beat till whipped. Add the vanilla and sweetener to taste. Stir into cooled fruit mix.

Mrs. J. R. Stoltzfus
Gordonville, Pa.

xxx

Our farmers deserve praise, not condemnation; and their efficiency should be a cause for gratitude, not something for which they are penalized.

J. F. Kennedy

Ida's Notebook

Ida Risser

It is a bright winter morning and the cold north wind is blwoing hard outside the window as I look over the snowy landscape. I've decided to let the breakfast dishes in the sink while I page through a garden seed catalog.

The pictures really tempt me to try new varieties of flowers and vegetables this year. But what amazes me the most is the other things offered for sale. There are buds to fasten to your bushes to keep cats and dogs from the shrubbery. There are rubber guards to protect the knees, flower drying equipment, outdoor drinking fountains and kitchen aids for canning and freezing. And I haven't even mentioned the lady bugs which can be purchased by the quart or the praying mantis egg cases to control garden pests.

Truthfully, I do enjoy this "armchair" style of gardening.

Continuing on the same line of thought, one of our nicest Christmas cards was one especially made to hold a packet of flower seeds. Amaranthus is a kind I've never raised and it will certainly remind me of this particular friend far beyond the holiday season.

Today, the 24th, is our wedding anniversary and I hope to receive some fresh cut flowers for the dining room table as it is my favorite gift. It will also serve as a centerpiece when our church group "Supper for Eight" meets here.

Allen, my husband, has been busy with two separate projects recently. He is putting siding on a new machinery shed which he had built this fall. It is an improvement over having expensive equipment rust in the field.

The other thing he's doing is catching raccoons in a box trap. They eat whole patches of our sweetcorn if it is not protected and in the winter they live in the barn and fatten up on corn silage.

4-H home ec awards return to York Co.

York County 4-H Home Ec members brought home with them three 2nd place sweepstake prizes from the 60th Farm Show. Winning sweepstakes awards in addition to placing first in their class were:

Flowers warm cold winter months

While a peek in a florist's decorated window may be the only view of flowers we have in the winter, the art of arranging and designing decorations with flowers should not be overlooked as a possible hobby during the months before spring. And what better way to forget about the pile of snow just beyond the sidewalk!

Flower arranging is by no means new, in fact, evidences of the art form were used in China beginning around 618 A. D. when they probably decorated religious altars and shrines.

Artists striving to recapture the scenes of ancient cities, such as Byzantium have often used hanging floral decorations as they were known to have became a way of life in the Near East Cities. History relates that by Greek inspiration, the Byzantium empires often used great formal decorations of fruit, foliage and even cut flowers to beautify the cities.

Following the period of the dark ages in Europe, flower arranging was revived with great spirit and every culture since that time has added to the art by stylizing and using many forms to perpetuate the use of flowers.

In today's more relaxed society, many have found an interest in floral arrangements and have geared them to meet the needs of today's living styles. For example, the hanging baskets, which had their roots in early eastern civilizations, have become a style for both apartment dwellers as well as for formal dining rooms.

Even many homemakers now use flowers in self-made arrangements for use as centerpieces, mantle decorations and as gifts.

Many courses on flower arranging are taught each year by adult education programs and community instruction programs and even if trying your hand at the art seems a bit too difficult - florists can create about anything your imagination can conjure up.

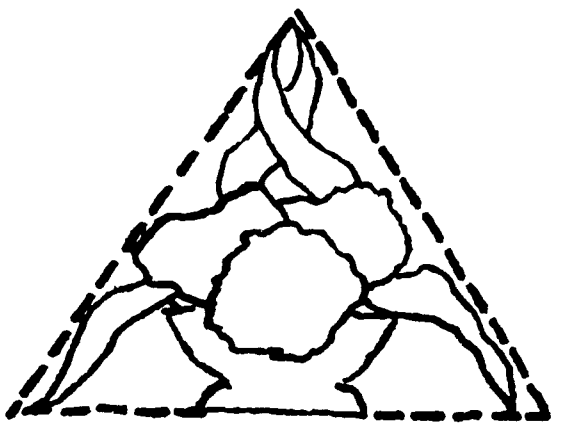
Flower arranging is truly an art, with many details of color, patterns, shapes and lines to consider. Many effects can be achieved by placing flowers in a prearranged pattern. The illustrations located below show some of those designs and the line which the eye follows through the arrangements. The overlaying dotted line indicates the basic shape incorporated into making the design.

Round eye pattern

Florists can provide the foundation material required and also have numerous vases and containers for your use.

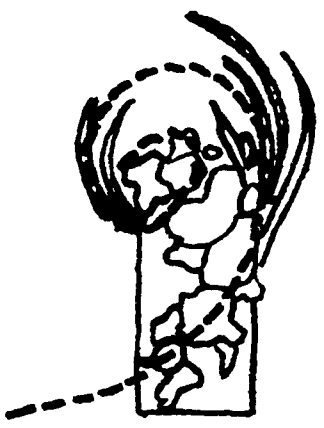
Thank spring with flowers!

Line designs make the eye travel through the complete arrangement.



Wide triangle pattern

Curved line design



Spiraling pattern

Oval shaped design

Area libraries have a wealth of information of flower arrangement which can aid the beginner as well as the advanced student.

Now is an excellent time to study the different forms of arranging so that spring flowers can be utilized in more ways than the traditional bunch in a vase.

Society 8

Gloria Longenecker, Miss Lancaster County, was guest entertainer for a recent meeting of Society 8. Miss Longenecker presented a number of musical and vocal selections and was accompanied by her sister.

Mrs. Lewis Bixler conducted the business portion of the meeting with Mrs. Warren Heisey, Mrs. Paul Erb and Mrs. Ruth Eby gave a report on the state convention.

The next meeting will be held at the home of Misses Ruth and Anna Mae Eby. Ruth Eby will be speaking on dolls.

LEACOCK COLEMAN CENTER

LEACOCK Coleman Center

85 Old Leacock Rd. R.D.1 Ronks, Pa.

Grapefruit noted in early history

Fresh grapefruit–white, red, pink, seedless, and seeded–are now in the market–and comming in greater numbers. The forecast, by USDA's Agricultural Marketing Service is for a 1975–76 grapefruit crop of 69.8 million boxes, 14 percent above last season.

This will also mean an even larger supply of frozen concentrated grapefruit juice and grapefruit sections.

According to legend, the grapefruit was first called it is presumed to have orginated in the West Indies. Tracing back, the word "grapefruit" apparently was first used about 1814 in a book on the horticulture of Jamaica. It was then described as a "fruit not larger than a good orange which is borne in bunches like grapes."

Florida claims to haveve grown its first grapefruit about 1825–also claims the start of the commercial grapefruit industry was in Florida. Sales were first made entirely to tourists and shipments were sent North. But, the earlier grapefruits were very seedy.

Grapefruit is picked tree ripe and is ready to eat on purchase. Look for firm, well-shaped fruits. The thin-skinned fruits have more juice then the coarse-skinned ones. If a grapefruit is pointed at stem end, it is likely to be thich-skinned. Rough, ridged or wrinkled skin can be an indentification of thick skin, pulpiness, and lack of uice.

Skin defects on grapefruit-scales, scars, thorn scratches, or discoloration–seldom effects eating quality. But--avoid grapefruit with such signs of decay as soft and discolored areas on the peel at stem end, water soaked areas, loss of bright color, and soft and tender peel that breaks with finger pressure.

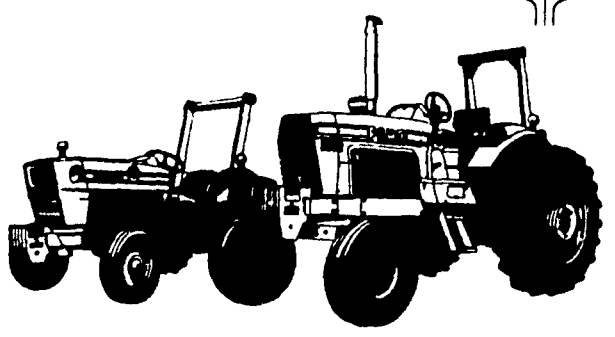
Fresh grapefruit is marketed in all seasons, but the peek months are in the first quarter of the year. Florida's grapefruit crop is forecast at an all-time high–and Texas expects production to be 51 percent larger than last year's crop. The trend in growing grapefruits is toward production of the seedless grapefruit. Most grapefruit is grown at comparatively low altitudes . . . In the United Sates, commercial grapefruit production is confined to Florida, California, Texas, and Arizona.

Per capita consumption of fresh grapefruit in 1974 was 8.3 pounds–and in 1975 the preliminary figures are about 8-½ pounds. Grapefruit is among the top 10 produce items in dollar sales and tonnage according to commercial figures.

Interested in freezing grapefruit? That's easy-Sections or slices of grapefruit may be washed and peeled and divided into sections, removing all membranes and seeds. Pack fruit into containers. Cover with cold 40 percent sirup made with excess fruit juice and water if needed. Add ½ teaspoon crystalline ascorbic acid to a quart of sirup. Leave head space 1-½ inches, seal and freeze.

For grapefruit juice select good fruit, squeeze and sweeten with 2 tablespoons sugar for each quart of juice, or pack without sugar. For better quality, add ¾th crystalline ascorbic acid for each gallon of unice. Pour juice into containers immediately. Pack in glass jars or citrus-enamel tin cans, if available to avoid development of off-flavors. Leave head space and freeze.

Convenience in the size you need.



7 power sizes in Ford Blue tractors.

- 30-hp 2000 All-Purpose.
- 39-hp 3000 All-Purpose.
- 52-hp 4000 All-Purpose.
- 67-hp 5000 All-Purpose and Row Crop.
- 83-hp 7000 All-Purpose and Row Crop.
- 110-hp 8600 All-Purpose and Row Crop.
- 135-hp 9600 All-Purpose and Row Crop.
- All models available with diesel engines. Gasoline engines available through 5000 series.

Plus special models for special needs:

- Low profile orchard tractors.
- Rugged 4-wheel drive County tractors.
- And a wide selection of optional equipment.

Choose cookware carefully

Choose cookware and ovenware for safety, ease of cooking and cleaning as well as a pleasing appearance. Look for durability to stand up to daily use and good heat conduction characteristics for even cooking. Utensils should be made of a material that will not affect color, flavor or nutritive value of food being cooked.

The construction and finish of cookware should be such that the items are easy to clean without crevices, seams or rough edges where food can become embedded. Be sure finish is smooth and even.

Utensils should be level and flat, or slightly concave designed to flatten on heating. This will make the greatest contact with the heat source and help provide even, efficient cooking, point out the Extension specialists.

Top-of-range utensils need snugly fitting covers that won't fall off when moving the cookware. On the other hand, it shouldn't be necessary to use force to remove the covers. Also check that knobs, handles and handle grips on range-top and ovenware are heat-resistant, securely attached and strong. Strength and stability are safety features necessary when lifting a container filled with hot food.

Handle grips, especially on casserole items, should be comfortable and easy to grasp for putting in and removing them from the oven. Lift each utensil by the handle or grips. They should balance well with the weight of the pot to prevent tipping.

In general, the Extension specialists recommend that you buy the best quality cookware your budget will allow. Cookware is used frequently and represents a substantial investment. Read lables, tags and manufacturer's pamphlets for information on construction, use and care.

Society 25

Society 25 met recently at the home of Mrs. Sam Goss Saturday. Mrs. Sterling Elmer led the devotions. Mrs. Wade Groff and Mrs. Laban Byers gave a report on the State Convention of farm women. Mrs. John Metz was in charge of reading the by laws. The next meeting will be held at the home of Mrs. Wade Groff, Lancaster R6.

Society 30

Society of Farm Women 30 held a meeting Monday evening January 19, at the home of Mrs. Dale Rohrer, R1, Kinzers. Trooper Ed Rowlands, from the Lancaster Police Barracks, gave the program - "Lady Beware".

A Valentine Banquet will be held Monday, February 16, at the Revere Tavern, Paradise, 6:45 p.m. A family style meal will be served. Tickets are $7.50 per person. Have your reservations to Mrs. Donald Good, 226 Spruce Street, New Holland, Pa. 17557, by Wednesday, February 11, 1976. The Rev. Elwood Mehle, a chalk artist from Leola, will be providing the entertainment.

We cannot tolerate substandard conditions on the farm any more than we can in industry. A fair return is a necessity for labor, capital and management in industry. It is equally necessary for those who produce our food . . .

Clothing workshop planned

LANCASTER - Throughout the coming winter months, the Lancaster Extension Office will be sponoring several clothing - sewing workshops. The classes will be designed for beginners as well as the advanced seamstress. For more information on the classes contact the Farm and Home Center on Arcadia Rd., Lancaster.

All of the classes will be held in the Extension Training Center which is located in the basement of the Farm and Home Center, 1383 Arcadia Road, Lancaster, Pa. Unless you hear from us, please come to the first class scheduled for the workshop in which you enrolled.

Beginning Clothing Construction

A series of six classes for those persons who have little or no experience in sewing. Basic fundamentals taught include: "How to" use a sewing machine; choose correct pattern size; make pattern alterations; select and prepare fabric; layout; correct cutting procedures; and sewing techniques used in a sleeveless, collarless garment. Cost $15.00.

Workshop No. 1 - Classes will be held from 1:00 to 3:00 p.m. on Mondays February 2, 16, 23, March 1, 8 and 15. Registration Deadline January 27.

Intermediate Clothing Construction

A series of six classes for the individual who has mastered the basic fundamentals of sewing. Techinques taught in this workshop include those used in constructing the classic "shirt look": when and how to use interfacing; simple collar and cuff construction; how to set a sleeve; machine and handmade buttonholes; belts; and working with plaids. Cost $15.00:

Workshop No. 2 - Classes will be held from 1:00 to 3:00 p.m. on Wednesdays February 4, 11, 18, 25, March 10 and 17. Registration Deadline January 29.

Workshop No. 3 - Classes will be held from 7:00 to 9:00 p.m. on Tuesdays April 6, 13, 20, May 4, 11 and 18. Registration Deadline March 31.

Cutting-To-Fit

A series of eight classes during which you will learn how to: alter a basic pattern to fit your individual figure problems to perfection; draft your own basic pattern in pellon; use this basic pellon to know where to alter commercial patterns and use it to create a variety of garments for your wardrobe. Techniques such as those taught in Beginning and Intermediate Worshops are pre-requisites for this course. Cost $20.00:

Workshop No. 4 - Classes will be held from 9:30 to 11:30 a.m. on Mondays February 2, 9, 16, 23, March 1, 8, 15 and 22. Registration Deadline January 27.

Beginning Tailoring

A series of eight classes presenting the basic principles of construction involved in tailoring a professional looking wool suit or coat. Cost $20.00:

Workshop No. 5 - Classes will be held from 9:30 to 11:30 a.m. on Mondays February 2, 9, 16, 23, March 1, 8, 15 and 22. Registration Deadline January 27.

Pants That Fit

A series of six classes where you learn how to draft your own basic pants pattern - designed to flatter your figure, feel comfortable, and fit well; how and when to line; work with plaids, stripes and border prints; and become acquainted with techniques used in constructing pants. Cost $15.00:

Workshop No. 6 - Classes will be held from 9:30 to 11:30 a.m. on Tuesdays February 3, 10, 17, March 2, 9, and 23. Registration Deadline January 28.

Workshop No. 7 - Classes will be held from 7:00 to 9:00 p.m. on Tuesdays January 27, February 3, 10, 17, 24 and March 2. Registration Deadline January 21.

Pant Coordinates

A series of five classes designed to give your wardrobe a new coordinated layered look. Learn to construct "tops" for the pants and skirts you already have. A study of the overblouse, vest, jacket, cardigan and blazer will be covered. Cost $12.50:

Workshop No. 8 - Classes will be held from 9:30 to 11:30 a.m. on Wednesdays February 4, 11, 18, 25 and March 10. Registration Deadline January 29.

Menswear Clothing Construction

A series of four classes designed to present professional techniques used to construct men and boy's slacks, shirts, vests, and ties, using double knits. Cost $10.00:

Workshop No. 9 - Classes will be held from 7:00 to 9:00 p.m. on Tuesdays January 27, February 3, 10 and 24. Registration Deadline January 21.

Workshop No. 10 - Classes will be held from 9:30 to 11:30 a.m. on Wednesdays January 28, February 4, 11 and 18. Registration Deadline January 22.

Be Creative With Knits

A series of eight classes presenting techniques necessary to achieve professional results when sewing with all types of knits available on today's market including sweater knits, bathing suits and basic lingerie. Cost $20.00:

Workshop No. 11 - Classes will be held from 9:30 to 11:30 a.m. on Tuesdays March 2, 9, 23, 30, April 6, 13 20 and 27. Registration Deadline February 25.

Tailoring Mens' and Boy's Knit Sport Jackets

A series of five classes presenting techniques which will give professional looking results when constructing sport jackets using double knit fabric. Cost $12.50:

Workshop No. 12 - Classes will be held from 7:00 to 9:00 p.m. on Tuesdays April 6, 13, 20, May 4 and 11. Registration Deadline March 31.

Workshop No. 13 - Classes will be held from 9:30 to 11:30 a.m. on Wednesdays April 7, 14, 21, 28 and May 5. Registration Deadline April 1.

Tailoring A Man's Wool Jacket

A series of four classes presenting techniques which will give professional looking results in constructing a man's wool jacket. To enroll in this workshop you must have completed our Tailoring Mens' and Boys' Knit Sport Jacket Workshop. Cost $10.00:

Workshop No. 14 - Classes will be held from 7:00 to 9:00 p.m. on Mondays February 9, 23, March 8 and 15. Registration Deadline February 3.

Sewing Clinics

Do you have trouble putting in sleeves, zippers or hems? Do you know all the new methods and techniques to help you achieve professional looking garments? If not, why not register for all or any of the three clinics we have scheduled. Registration is $1.00 per clinic:

Clinic No. 1 - Zipper Clinic - Monday, February 9 from 7:00 to 9:00 p.m. Registration Deadline February 3.

Clinic No. 2 - Hem Clinic - Monday, March 29 from 7:00 to 9:00 p.m. Registration Deadline March 23.

Clinic No. 3 - Sleeve Clinic - Wednesday, April 28 from 7:00 to 9:00 p.m. Registration Deadline April 22.

Society 14

Farm Women Society 14 met, recently at the home of Mrs. Laverne Mylin. The group started sewing at 9:00 a.m. and finished by noon. The other hostesses, Mrs. Charles Leaman, Mrs. Jacob Herr, Mrs. Raymond Barge, Mrs. Charles Meloy, and Miss Miriam Leaman, served a delicious luncheon. During the business meeting the president announced the ladies who made bicentennial gowns may model them at the Farm and Home annual banquet on January 29.

The program was presented by Edith Herr. She gave humorous and interesting readings. Next month the members will meet at the Mennonite Historical Society and Archives and will tour the Tabernacle there.

Sequoia Riders install officers

The Sequoia Riders 4-H Horse and Pony Club held their first meeting of the year recently. New officers were installed for the year and they include: Dwayne Weaver, president; Lyn Lenker, vice-president; Janine Shank, secretary, Tiera Ressler, treasurer and LuAnn Kauffman, reporter.

The club has scheduled a trial ride for April 3, at Fairview Farms in Elizabethtown.

Interested young people who wish to join the club may call Mrs. Jane Ressler at 367-2539 or Wendy Ebersole at 367-6608 for more information.

Dauphin Co. Society 1

The Dauphin County Society 1 of Farm Women met recently at the home of Mrs. Mary Kopp. Pat Baum and Gerte Dehmey were the co-hostesses.

Bertha Kennedy, the newly elected president, conducted the business meeting.

Lillie Ann Kopp, daughter - in - law of the hostess, gave a demonstration on cooking with a micro-wave oven. Several snacks were prepared and sampled by the women.

The next meeting will be held on Feb. 10 at the home of Ruth Espenshade.

Berks Co. Society 1

Society 1 of Berks County met recently at the home of Ruth Walters for a program on safety. Mr. and Mrs. Daniel Christ, Oley, gave a demonstration on mouth to mouth esuscitation as a first aid method.

Members discussed making easter eggs for the money making project with candy making to be started Feb. 16.

The next meeting will be held at the home of Anne Yanos. Members are invited to participate in a country "hoe-down" to be held at the Shartlesville Grange on March 27.

THE AMAZING NEW FUEL CONDITIONER THAT WORKS IN GASOLINE, DIESEL FUEL AND FURNACE OIL.

FUEL MATE
for gasoline, diesel fuel and furnace oil

SCIENTIFICALLY FORMULATED FOR TODAY'S HIGH—COMPRESSION ENGINES...

*Reaches and lubricates points of excessive wear. *Keeps carburetors, diesel injectors, furnace parts clean and operating smoothly for peak performance. *Helps fuel give more power per unit of volume. *More than pays for itself by reducing maintenance and operating expense.

FUEL MATE HELPS BACK UP SPACE—AGE ENGINEERING AND CHEMISTRY...

Gone are the days of large tolerances, crude fuels and heavy oils. Today's close tolerance engines are designed for high speed operation with light oils and highly refined fuels. There is no room for carbon, moisture, gums and sludge if top efficiency is to be maintained. Here's where Fuel Mate comes to the rescue! By using it regularly, these enemies of smooth operation are removed and engines are able to perform as they were designed to perform...providing full service for a maximum length of time.
Use FUEL MATE for cars, trucks, tractors, bulk tanks, industrial equipment, outboards, power mowers, all 2-cycle engines, furnace oil.

Charolais officer says new beef grades will benefit entire industry

HOUSTON, Tex. - Leaner, low-fat, high quality beef will be on its way to meat market counters across the country as a result of changes in the USDA beef grading system which go into effect February 23, believes the executive officer of one of the nation's largest beef breeds.

Dr. J. W. Gossett, executive vice president of the American-International Charolais Assn. of Houston, said the changes would give the consumer more preferred quality lean beef per dollar spent at the retail meat counter, and at the same time reduced the costs to the producer and feedlot operator for production of that beef.

"The changes will recognize the high eating qualities of younger, faster-growing and more efficient beef cattle - the kind that most breed associations and university research and agricultural extension people have advocated for many years," he said.

The Department of Agriculture on January 13 announced changes in the grading system as proposed by beef industry leaders to go into effect February 23. The Department had approved the changes several months ago, but an enactment date was delayed due to various litigations pertaining to mandatory yield grading of beef carcasses.

The changes primarily will permit more beef carcasses to enter what is now known as the "choice" grade without diminishing eating quality and acceptance. Also, the change will strengthen what currently is known as the "good" grade by removing the lower quality carcass from that grade. This will result in greater uniformity and dependability of the "good" grade, and will eventually emerge as the "preferred" grade by many consumers.

"Thus, more cattle with a good balance of growthiness, high eating quality and cutability will be available at the market place," Gossett stated. The Charolais association recommended similar changes to the Department of Agriculture and the industry two years ago.

"Too much emphasis has been placed upon the term "choice" grades of beef in recent years," the Charolais executive continued. "As a result, feeders were forced to overfeed their cattle for 30 to 60 days in order for those cattle to lay on sufficient fat to reach the Choice grade.

"This over-feeding resulted in excessive amounts of external fats, which only served as a liability to the producer, the feeder, and the consumer. This excess fat could only be trimmed and discarded, at a high cost to the consumer.

"It has been shown by long-time university research and feeders that it required two and one-fourth times as much energy to put on a pound of fat than it does to produce a pound of quality lean beef. This is fat which the consumer does not want but must pay for in her neatly primmed prepackaged cuts at the meat counter.

"Eating qualities of these younger, leaner cattle are essentially the same as for the older, over-finished cattle, but without the excess fat. Young lean beef is highly palatable, flavorful and tender. In fact some major chains on the West Coast already have switched to promoting this type of beef because of its leanness and preferred eating quality.

Gossett noted that the beef industry is in an era of high production costs, and feeders could use the savings of lower production costs which would result from producing less fat.

"A 10 to 20 per cent savings on total grain fed to fat cattle every year could be achieved and a more attractive product produced it producers and packers were not saddled with the essentially one-grade system that encounters the production of waste in order to meet the marbling requirements of the Choice grade. A more orderly flow of cattle to the market could be another benefit for the consumer."

Progressive beef industry leaders for many years have described the current grading system as "antiquated" and one that places more emphasis upon older overfat and inefficient cattle than it did for the younger cattle now being produced. Nor has it kept pace with changes within the industry or with changes in consumer preferences.

Horsemen warned about epidemic

HARRISBURG – Pennsylvania horsemen are being urged to consult their veterinarians for vaccinations against a flu epidemic that has spread among the horse population in the eastern United States.

Dr. Everett E. Denlinger, director of the Pennsylvania Agriculture Department's Bureau of Animal Industry, said that equine influenza has been reported in Kentucky, Louisiana, Maryland and New York. Most reports have come from race tracks.

"We want to avoid an outbreak in Pennsylvania and the best way to do that is for horse owners, especially race horse owners, to have their animals checked," said Denlinger

The disease is caused by the virus A2 equi-Miami-63. It has a 50 to 100 percent chance of spreading from an infected horse to all exposed horses.

The outbreak, according to USDA's Animal and Plant Health Inspection Service (APHIS), is believed to have started at the Keeneland Race Track, Lexington, KY., in November. The outbreak was attributed to a lack of vaccination coverage within the horse population.

Herr named manager

Larry L. Herr has been promoted to agri-business manager for the 13-state eastern sales region of International Harvester's agricultural equipment division, headquartered at Menands, N.Y.

Herr was previously promotion supervisor for the region, and served earlier as area manager and sales representative for IH at Harrisburg, Pa. He joined the firm there in 1966 after receiving his degree in agricultural mechanics at Pennsylvania State University.

Society 3

Society 3 of the Farm Women met recently at the home of Mrs. Gilbert Paul, Stevens R1. The meeting was in the form as a "come as you are party."

The installation of officers highlighted the meeting with the following ladies being chosen to fulfill leadership roles: Mrs. John Edwards, president; Mrs. Luther Moore - vice president; Mrs. Earl Miller, secretary; Mrs. Earl Myers, corresponding secretary and Mrs. Ivan Eberly as treasurer.

A skit "A day in the life of a Farmer's Wife" was presented by Mrs. Donald Graybill and Mrs. Jack Lee.

The next meeting will be at the Coleman Memorial Chapel, Brickerville on Feb. 21. Mrs. Esther Petticoffer will be the hostess.

Society 18

Farm Women Society 18 met Jan. 17th at the home of Mrs. Raymond Stoner, Eden Rd., Lancaster. Delegates to the State Convention gave a report and told the group that a member, Mrs. John Hess, had been elected as the first vice-president for the state officers.

Speaker for the program was Mrs. David Fyock, who gave a talk on decorating Ukranian eggs.

Mrs. Norman Duke and Mrs. Jay Wissler were installed as new members of the Society.

Society 18 will entertain Society 5 on Feb. 21 at the Farm and Home Center beginning at 1:30 p.m. Faye Stoner will be speaking on her experiences as an IFYE in Germany.

THE FRIENDLY FIRST

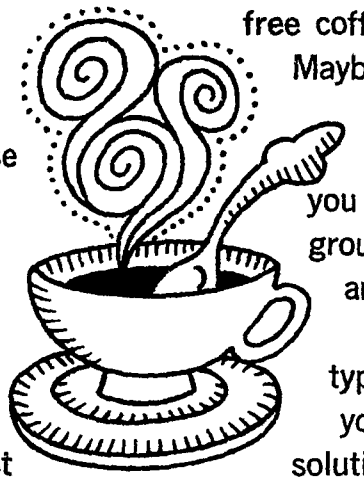
FRIENDSHIP

Our idea of banking

The things that people used to believe in are often considered old-fashioned today. Things like honesty, integrity and friendship in business.

But you'll find all these things when you bank at the Friendly First – the bank where you *know* you have friends.

You can walk into any office of the First National Bank of Strasburg and get friendly help from everyone on the staff – including our officers and managers.



They always have time to sit down and discuss your personal problems over a cup of our famous, free coffee.

Maybe we're old-fashioned about our hometown style of banking. But you won't find a sharper group of banking experts anywhere!

And you'll find *every* type of banking service you need . . . the right solution to your particular problem. If you like the idea of a full-service bank that still believes in old-fashioned standards, you'll like the Friendly First. Try us.

CHESTER CO. DHIA MONTHLY REPORT

The high herd in the Chester DHIA program for December 1975 was Earl M. Weir's. His 33 registered Holsteins produced an average of 2.12 pounds of butterfat per day per cow.

The highest individual butterfat record came out of the Paul King herd, whose five-year-old registered Holstein, "Beauty," closed her lactation with 19,800 pounds of milk, a 4.9 per cent test and 968 pounds of butterfat. The milk production champ is "Vega," a four-year-old whose home is also on the Paul King farm. A registered Holstein, she checked in with 25,133 pounds of milk, a 3.2 per cent test, and 812 pounds of butterfat.

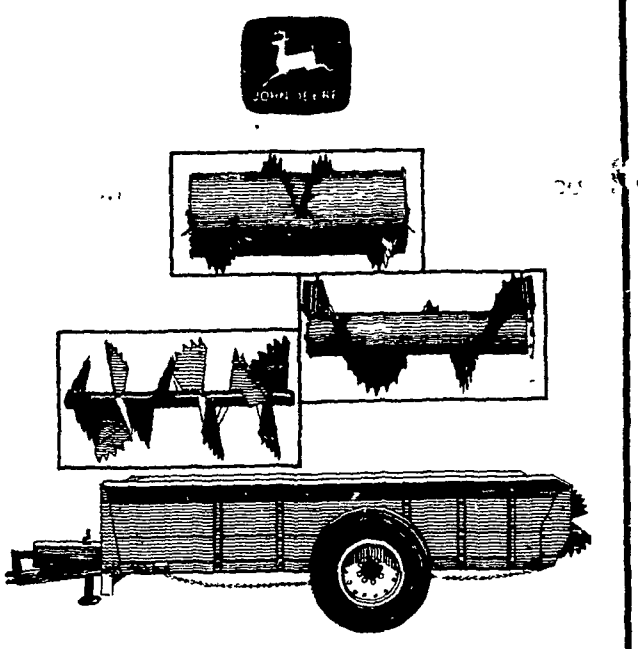
Three single-beater choices because your needs aren't the same as your neighbor's



John Deere offers three economical single beaters to match your spreading needs:

Unique 18-inch drum (top) is designed for manure with little bedding. The big drum nearly fills the rear of the spreader and holds in soft manure.

Nine-inch drum (right) plugs some of the gap, also handles packed manure efficiently.

Paddle beater (left) takes deeper bites, for tearing apart hard-packed manure.

See us soon about a beater and spreader matched to your operation.

Conservation screened

WASHINGTON - A short history of conservation in the United States is presented in "Limits," a bicentennial slide set produced by the U.S. Department of Agriculture's Soil Conservation Service and available to the public.

The fifteen-minute production traces the growing awareness of Americans that our natural resources - soil, water, timber, wildlife and scenic beauty - which at first had seemed inexhaustible, were not without limits and had to be protected against exploitation.

"Limits" is appropriate for showing to all audiences interested in conservation: schools, conservation groups, television audiences, civic clubs and organizations.

Copies of the slide set can be purchased for $20.50 from the Photography Division, Office of Communication, U.S. Department of Agriculture, Washington D.C. 20250. The filmstrip can be ordered for $12.50 from Photo Lab, Inc. 3825 Georgia Ave. N.W., Washington D.C. 20011. A programmed cassette with soundtrack and two copies of the illustrated narrative guide are included in the price of both the slide set and filmstrip.

New AFBF chief in Washington

PARK RIDGE, Ill. - Allan Grant, president of the American Farm Bureau Federation, the nation's largest general farm organization, announced the appointment of John C. Datt as director of the Federation's Washington office.

Datt, who has been AFBF director, Congressional Relations since December 1, 1973, will be administratively responsible for all functions of the Washington office - Congressional relations, government relations, political education programs, and information. He will report directly to President Grant. His appointment became effective last week.

"Datt's 25 years of service in the Washington office and his experience as assistant director and associate director of the Washington office qualify him well for his new post," Grant said.

Datt has been a member of AFBF's Washington staff since 1950, when he was named assistant director of the fruit and vegetable department. Since that time he has served as director of the fruit and vegetable department, assistant legislative director, assistant and associate director of the Washington office, and director, Congressional relations For 14 years he was the staff coordinator for AFBF's political education and action program. Since 1969 he has been the staff secretary to the AFBF resolutions committee.

Born in Gibsonia, Pennsylvania, in 1927, Datt grew up on his family's dairy, fruit, and vegetable farm. He attended Muskingum College at New Concord, Ohio, and was graduated with B. A. degree in economics. In 1951 he received a master of science degree in agricultural economics from Pennsylvania State University.

The new director of the Washington office is a member of the American Agricultural Economics Association and the Washington Food Group.

He is married to the former Gwen Patriquin. Mrs. Datt is a graduate of Muskingum College. They have one daughter and two sons.

The Datts reside in Silver Spring, Maryland, a Washington suburb, and are members of the Christ Congregational Church in that community. For a number of years he has been a member of the board of Trustees of the Silver Springs Boys Club and has been involved in the athletic activities of the club.

MINERAL SUPPLEMENTS

who needs them? You do!

Quality roughage alone can provide much of the protein and energy needed for milk production. But since roughages may lack both balance and quantity of minerals necessary for maximum milk production, bone and muscle development, and the most efficient utilization of other nutrients—many dairymen need a mineral supplement program.

How can you tell if you need a mineral supplement program?

Let us make a free analysis of your forage crops. We'll give you a report on the nutrient value of your hay, silage, or other roughages, along with recommendations for any supplements—if necessary. **We won't try to sell you anything you don't need!**

Our three mineral mixes—Beacon Phos-Min, Beacon Mineral Ade and Beacon Cal-Min—are formulated by highly respected dairy nutrition specialists. The supplement they recommend will contain the necessary minerals to make up deficiencies or imbalance in your roughages and to achieve the proper calcium-phosphorus ratio in your total feeding program.

You can rest assured that you aren't paying extra for exotic ingredients, high transportation cost, and expensive promotion and sales cost.

With BEACON, you get more mineral units per dollar invested.

Mineral supplements, formulated especially for the cow at reasonable cost, are part of what we call "No nonsense feeding".

Ice Capades coming to Hershey

HERSHEY - With the opening number of this year's all new Ice Capades at Hersheypark Arena, February 10-15, one discovers that the phrase "something for everyone" is more than simply a worn-out cliche.

For those in that continuous quest for better ways to stay in shape, "Miss Physical Fitness", the sensational Jo Jo Starbuck, just might have the answer. Under her expert guidance, Paul Guzman and the Corps de Ballet demonstrate how to stay trim with a stylish session of rapid calisthenics.

Children of all ages will delight at the antics of Yogi Bear and his cartoon friends as the ice turns into a happy forest in "Happy Birthday, Yogi Bear". Fred Flinstone, Scoobie Doo, Huckleberry Hound, Quick Draw McGraw, Hong Kong Phooey and the Banana Splits all come to life for a fantastic celebration - complete with giant picnic baskets.

The oriental beauty of Sarah Kawahara is featured as the secen shifts to "A Pinball Odyssey", a brilliant, psychedelic interpretation of existence in a pinball machine world. Radiant costumes, helmets, masks and the unique light streaking effects, make it an eye pleasing and mind-bloggling spectacle.

Other original productions are certain to carry you on an emotional merry-go-round. Enter a magical world with Billy Chapel in "Curiosity Shoppe", as he recalls good times past; follow "The Story of Tsing-Tsu", a bitter-sweet romance in the old Mongolian empire, starring lovely Sarah Kawahara and the inimitable Ken Shelley; marvel at "Those Golden Girls", 32 beautiful Ice Capettes who give a nostaglic glimpse of the Busby Berkely Golddiggers; and thrill to a display of fireworks as the cast wraps up the evening with a rousing, toe-tapping, flag-waving salute in "I Love A Parade."

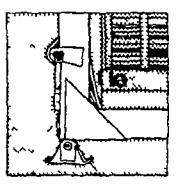
Acts to tickle your funnybone and put a gleam in your eyes include British comic Terry Head bringing an Egyptian mummy named Gisela to life, Canadians Johnny LaBrecque and Bob Mac as hilarious "Champagne Gentlemen",. and the outstanding young skating juggler, Albert Lucas.

The 1976 Ice Capades are scheduled for 10 performances at Hersheypark Arena February 10-15. Show times ate Tuesday through Thursday at 8:10 p.m., Friday at 4:30 p.m. and 8:10 p.m. Saturday at 1:00 p.m., 5:00 p.m. and 9:00 p.m., and Sunday at 2:00 p.m. and 6:00 p.m. Special discounts are available on Wednesday and Thursday for the 8:10 p.m. shows and the Friday 4:30 p.m. show. Reserved seats are now on sale at the Hersheypark Arena or at any Hershey ticket agency.

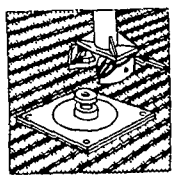
Vince Lombardi, the great coach of the Green Bay Packers, caught one of his players, Max McGee, breaking curfew and fined him $250. A couple of nights later he caught Max again. This time he doubled the fine to $500. Then he told McGee firmly: "And the next time it will be $1,000." Lombardi started to walk away, stopped, a small smile came across his face. "By the way, Max," he added, "if you find anything worth $1,000, let me know. I may go with you."

BIG TRUCK HAULING WITH YOUR PICKUP AND THE...

WINNEBAGO® Agri-Trailer™



Two-speed landing gear provides easy hitching.



Easy hook-up with wide-opening jaws of Pin & Plate.

Hitch this versatile trailer to your truck for road travel, switch it to your tractor for field loading. The Winnebago Agri-Trailer can carry as much as a 3-ton truck. It can haul over 7½ tons. Or 285 bushels of grain. Winnebago's 5th wheel design gives unique stability. It turns short, backs up easy, and trails true at highway speeds without fishtailing.

Land use policies discussed at RD meeting

For the first time, a group of leaders representing a cross-section of the county joined the regular meeting of the Lancaster County Rural Development Committee, held in the Farm and Home Center. The purpose was to discuss land use policies and means of preserving our good agricultural land.

County Agent, Max Smith, Chairman of the RAD Committee, called the meeting in an effort to coordinate efforts of the achievement of a more rational approach to growth and land use. Representatives of the Lancaster Chamber of Commerce, County Pomona Grange, Soil Conservation District, League of Women Voters, Department of Forestry, Farmer's Home Administration and County Planning Commission were among those present.

The opening discussion focused on what each of these organizations is doing currently to promote a better understanding of the issues. Some major questions about land use policy goals were raised. How should Lancaster County grow in order to benefit not only today's residents but their children and grandchildren as well? What levels of government should make land use decisions, and on what criteria should these decisions be based? Who should pay the direct and also the indirect costs of development?

Ray Sydansk, Chairman of the Land Use Committee of the Lancaster Chamber of Commerce, discussed his committee's current analysis of the recently released County Comprehensive Plan. According to Planning Commission representative George Di Ilio, the Commission has been holding public meetings, with slide presentations, to explain the plan. Although interest in the plan has been unfortunately low, the Commission will continue its educational program through June. An endorsement of the plan was given by Phyllis Whitesell of the League of Women Voters. The League is also currently engaged in an active educational program relating to Land Use Policy, and strongly promotes citizen participation in policy planning.

Lancaster farmer, Amos Funk, expressed his chagrin at the great quantity of discussion and little action on land use and growth policy issues Funk, who has been active locally as well as on state and national policy levels for many years, argued that there are few new concepts in land use policy and that it is time to implement what we already know.

It was proposed that the participating groups would do well to coordinate their educational efforts with one another. Furthermore, it was suggested that a county steering committee representing all major county interest groups might be established to increase citizen involvement in land use decision making.

He who hesitates is not only lost but several miles from the next exit.

A man in a large eastern city wrote the local newspaper to report that the country is in far worse shape than most people suspect. His evidence: "Everytime I call Dial-a-Prayer I get a busy signal."

PREVENT EMERGENCY

Before you go to the field with that tractor that might have caught a cold, or is still suffering from aches and pains it had when you put it away last fall.

NOW IS THE TIME

to call Dr. Schott and his paramedics, specialists in broken or bent limbs, transplants, oil transfusions and overhauls.
Preventative medicine will lessen the chance of an emergency attack during the busy spring season.

Grassland FFA'ers Participate at show

Farm Show week was an exciting week for many members of the Grassland FFA Chapter. The 47th Annual Mid-Winter FFA Convention was held at the Forum Building in Harrisburg. The Keystone Farmer Degree was given to LaVern Martin, Lewis Good, Mike Hartman, Robert Reifsnyder, and Tom Wentzel. Honorary Keystone degrees were presented to Mr. Victor F. Weaver, of Weaver's Poultry and Mr. Clifford Day, FFA Advisor of the Grassland Chapter.

The parents of two local State officers also were honored and presented with the Honorary Keystone Degree. They were Mr. and Mrs. John M. Weaver, parents of Regional Vice-President, Don Weaver, and Mr. and Mrs. Elmer Hoover of Leola, parents of State Wide Vice-President Lloyd Hoover.

During the Farm Show activities, a steer by the name of Harold, exhibited by Jeff Martin, a senior FFA member, placed as the Reserve Champion in the heavy weight class and ninth in Showmanship. Bill Hughes placed sixth with his hog in his weight class while Nelson Messner placed a fourth and sixth in his weight class. Tobacco was exhibited by Dennis Bauder, Harry Boley & Mike Feister.

Corn was exhibited by Brian Wise and placed ninth after being first in the County competition. During awards ceremonies for the Pa. Crop Improvement Association meeting, sixth Grassland members received ribbons for their participation. Tom Wentzel and Linford Weaver received Blue ribbons for their productivity class; Dan Witwer received a Red ribbon; and Rick Groff, Bill Hughes, and Tim Weaver received white ribbons in their class.

Steve Sauder
Ch. Reporter

It may come as a surprise to some of us to realize that every business and investor in this country has a silent partner — Uncle Sam. Out of every $1 of company profits, he gets his share right off — about 50 cents in taxes.

Then, to finance growth, the average firm keeps half of the remaining 50 cents for capital. The stockholders get the 25 cents that's left in the form of dividends.

If you're a typical investor, you're somewhere near the 40 percent tax bracket. So Uncle Sam winds up with 10 cents of your 25 cents dividend, leaving you with 15 cents.

Out of the original $1 of profit, 60 cents goes to Washington.

FTC aims at cooperatives

Cooperatives and large corporations in food production, processing, and distribution can anticipate closer scrutiny from federal agencies in 1976 – particularly the Federal Trade Commission and the Justice Department. This became very evident to the participants in the 20th annual Farm Bargaining Conference in Washington last week.

Alfred F. Dougherty, Jr., Deputy Director of the FTC Bureau of Competition, said the present emphasis of the Bureau is on energy, food, health care, but that food was taking prominence in department decisions. With this generalization, Dougherty outlined the Bureau's attitude toward farm cooperatives. He noted the Commission's recent action against a lettuce producers' cooperative and said a special investigation is now under way in the citrus industry.

Dougherty cited the Commission's Sept. 30 special report on Agricultural Cooperatives dealing with the Capper-Volstead exemption to anti-trust laws. The Report concluded that agricultural cooperatives have the same responsibilities under the anti-trust laws that are imposed upon other businesses. He said the report also noted that there was a serious question as to whether large agribusiness corporations should be permitted to join agricultural cooperatives having the protection of the Capper-Volstead Act. The FTC has called on Congress to examine this question, he said.

"Small, disorganized producers should be allowed to form agricultural cooperatives to improve their ability to deal with concentrated buyers and suppliers," he continued, "but (the Act) does not allow their cooperatives to restrain trade through agreements, acquisitions mergers, or other devices which would violate the anti-trust laws if carried out by ordinary corporations."

For those leaders attending the Bargaining Conference for the purpose of discussing the possible growth of cooperative bargaining for farmers, Dougherty pointed out that "bargaining" is not mentioned in the Capper-Volstead Act. "We cannot read the word 'bargaining' into the Act unless it has been expressly included by Congress," he said.

listeners, Dougherty added: "If bargaining were not protected by the Capper-Volstead Act, then it is possible that they would be illegal per se under the antitrust laws. The Fourth Circuit Court of Appeals held ... that Excelsior companies which sold through a common sales agent were guilty of price-fixing. One implication of that decision would be that agricultural producers who bargained through a common agent could also be held liable for price-fixing.

Co-op leaders firmly disagreed with the FTC spokesman but agreed that agriculture in general and cooperatives in particular have a big story to tell in Washington. The FTC views somewhat parallel those of the Justice Department and the current consumer movements.

Acting director named

HARRISBURG - Secretary of Environmental Resources Maurice K. Goddard announced Monday the appointment of James K. Hambright as acting director of the Department's Bureau of Air Quality and Noise Control.

Hambright will succeed Clark L. Gaulding, who resigned effective January 28. Gaulding will move to Seattle, Washington, to become Chief of Air Programs for Region X of the U.S. Environmental Protection Agency, covering Washington, Oregon, Idaho and Alaska. He had been with DER since January of 1973.

Hambright joined the Pennsylvania Department of Health as an air pollution control engineer in 1962 and was named Chief of the Division of Abatement and Compliance for the Air Quality Bureau in 1968. ohe came to DER in 1971 when the Air Quality program was moved from the Health Department to the new agency.

The Acting Director is a registered professional engineer and has a B.S. in Chemical Engineering from The Pennsylvania State University and a Master of Public Health (air pollution control) from the University of Michigan.

Hambright is married and the father of three children.

His salary will be $28,245 annually.

Charles Chapin, city editor of the old New York World, was an irascible tyrant who kept his staff in a constant state of tension.

At one time, he took ill and was away from the office for a week. When he returned, one of the reporters asked him for a week's vacation. Chapin exploded.

"Vacation!" he screamed. "I was away for a week. Wasn't that vacation enough for you?"

One enterprising home builder has found a way to motivate his employees. For exceptional work he names streets after them in his housing developments.

What's New

Maloran Lasso Plus Fact Sheet Available from Ciba-Geigy

A new Maloran plus Lasso fact sheet for preemergence weed control in soybeans is available from the Agricultural Division of Ciba-Geigy Corporation.

Maloran is the firm's chlorbromuron herbicide that when combined with Lasso gives effective weed control of a wider range of annual broadleaf weeds and grasses than either offers separately.

Maloran plus Lasso should be applied to the surface of the soil at planting or immediately following planting, but before weeds or soybeans emerge.

The fact sheet lists weeds controlled, when, where and how to use the combination and recommended rates.

Maloran is also registered for use on potatoes, and winter wheat.

For copies of the fact sheet request CGA 330-043 from Ms. Betsy Wood, Agricultural Division, Ciba-Geigy Corporation, P.O. Box 11422, Greensboro, N.C. 27409

Penn State to host annual lime, fertilizer, pesticide meeting

UNIVERSITY PARK - The latest developments in plant nutrition, pest management and the use of sewage sludge in crop production will be discussed by a number of experts at the annual Lime, Fertilizer, and Pesticides Conference scheduled for January 28-30 at Penn State University.

Sessions will be held in the University's J.O. Keller Building starting at 1:30 p.m. on January 28. Farmers, agricultural industry personnel, and educators are invited to attend.

Co-chairmen of the conference are Dr. Jon K. Hall, associate professor of soil chemistry at Penn State; and Donald Dodson, of the Organic Plant Food Company, Lancaster.

The afternoon session on January 28 will center on the fertilizer outlook, pesticide availability, and plant nutrition research in agronomy and horticulture. Speakers include Edward Wheeler, president of The Fertilizer Institute; James Mills, director of communications for the National Agricultural Chemical Association; Dr. James Starling, head of the Penn State Department of Agronomy; and Dr. William Hepler, head of the Department of Horticulture at Penn State.

The morning session on January 29 will focus on alfalfa pest management, the Pennsylvania Pesticide Law, and alfalfa weed control for 1976.

Presenting topics will be Dr. Kenneth Leath, of the USDA Pasture Research Laboratory at University Park; Stanley Gesell, Penn State Extension entomologist; Henry Nixon, of the Pennsylvania Department of Agriculture; John Aleck, of the Chevron Chemical Company; Wayne Marz, of the Stauffer Chemical Company; John Harmon, of Rohm and Haas Company; Edward Cunningham, of the Chemagro Corporation; and James Luke, of Ciba-Geigy Company.

The Pesticide Applicators Certification Program, pesticides for minor crop uses, the use of sludge, and cadnium and the food chain are topics to be presented the afternoon of January 29. Speakers will be Penn State College of Agriculture faculty members.

The January 30 program will be devoted to band placement of fertilizers, an update on soil testing, future methods of lime application, and soil fertility and herd health. Participants will be Dr. Wayne Hinish, Penn State Extension agronomist; Dr. Shaw Reid, Cornell University Extension soil scientist; Russell Harvey, of Agway Inc.; and Dr. David Kradel, associate professor of veterinary science at Penn State.

The annual business meeting of the Pennsylvania Plant Food Educational and Protectant Society will be held January 28 at 4:30 p.m.

For additional conference details, contact the Agricultural Conference Coordinator, 410 J.O. Keller Building, University Park, Pa. 16802.

Farm-City breakfast scheduled

ALLENTOWN - The next in the series of Farm-City Breakfast Meetings is set for January 29th at 7:30 a.m. at the City Vu Restaurant on MacArthur Road here.

The Agriculture Committee of the Allentown-Lehigh Chamber of Commerce has set the first 1976 breakfast as an Exploratory Chamber Breakfast.

To help answer questions of many of the Farm-City groups, relative to the work, purposes and structure of the Chamber of Commerce Programs, a panel of officers and committee chairmen will conduct a Roundtable presentation.

Breakfast reservations can be made at the Chamber of Commerce Office or at the Lehigh County Extension Office in the Courthouse in Allentown.

A Swedish firm has come up with a clever way to make business letters more effective. They print photographs on their letterheads depicting the "mood" of the sender. There are four alternative versions, ranging from a happy face to looks of earnest concentration, to slight irritation, and finally downright anger.

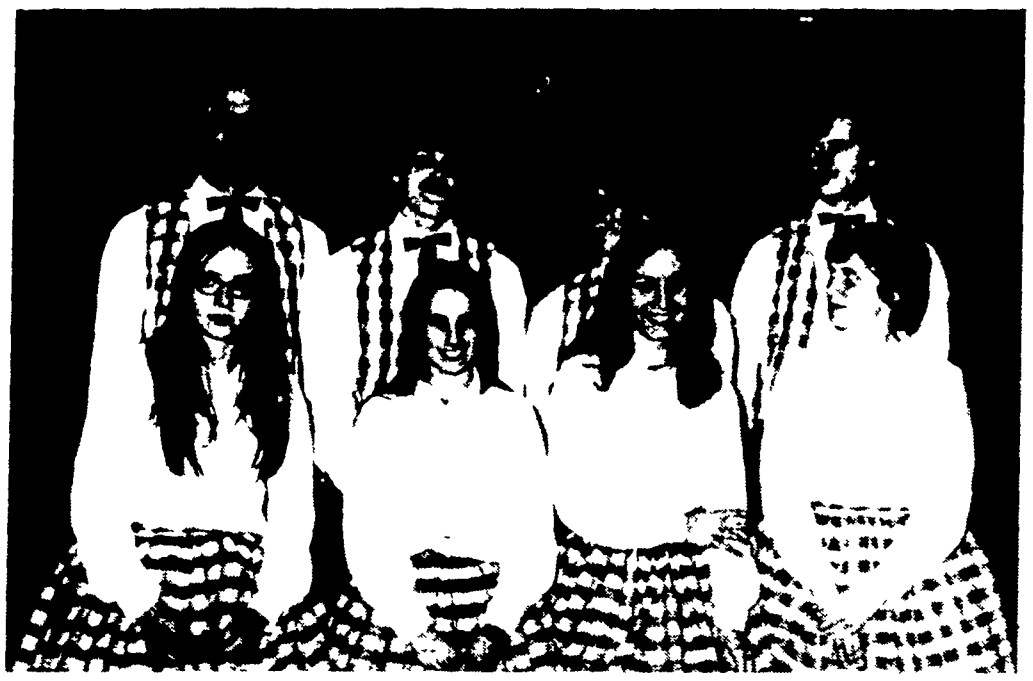
Twin Valley square dancers participate in state contest

The Twin Valley Young Farmers square dancers recently danced in the 19th annual folk dance contest at the Pennsylvania Farm Show. Members of the square dance set, representing the Berks-Chester County area, were: Richard and Barbara Kurtz, Robert Stoltzfus and Beth Swartzentruber, Melvin Houck and Melody Kurtz, Harold Steve and Michelle Bowman. Coaches for the team were Wayne and Linda Lutz.

The group was among 480 participants from 22 counties who danced before a large crowd in the farm show arena.

Each of the 60 sets dancing in the competition, was costumed uniformily and attractively in their own unique way. The Twin Valley Young Farmers were dressed in red and white checkered skirts and white blouses for the girls and white shirts, navy pants, red and white checkered vests, and black bow ties for the men.

The square dance program is designed to encourage participation and elevate the standards of performance in folk dancing.



Shown are the Twin Valley Young Farmer square dance set who recently danced at the Farm Show. The couples are from left to right: Barbara and Richard Kurtz, Beth Swartzentruber and Robert Stoltzfus, Melody Kurtz and Melvin Houck, and Michelle Bowman and Harold Steve.

Montgomery 4-H'ers have beef supper today

Beef from 4-H project steers will be the feature item at the annual 4-H Livestock Club Baby Beef Dinner on Saturday, January 24 from 4-8 p.m. at the Montco Vo-Tech School on Sumneytown Pike in Lansdale. The meal is served country-style and includes meat entree, vegetables, potatoes, dessert and beverage, all served by 4-H'ers.

Many hours of volunteer effort make this event a success. Chairman for this year's supper is Gordon Alderfer, Kulpsville Gordon is currently a leader in the livestock club and works primarily with the swine projects. Mrs. Durrell Alderfer, Harleysville is in charge of ordering and preparing the food; Mr. Lewis Heiser, Lock Haven (formerly of Norristown) who brought the steers at the 4-H Sales; and Mrs. Willard Crossgrove, Mainland, will head up the dining hall and waitresses.

Tickets are $4.25 for adult and $2.00 for children (under 12). Tickets may be purchased at the door, ordered through Livestock Club member or by calling the Cooperative Extension Service at 277-0574. The group plans to serve 1,500 ticket holders. Proceeds from the dinner will support activities of the Livestock and other 4-H Clubs.

Human nature seems to endow every man with the ability to size up everybody but himself.

Nothing is really work unless you would rather be doing something else.

Best feed-price ration in four years

1975 milk production strong

U.S. milk production for Dec. 1975 is calculated as having been 9.275 billion pounds - up two per cent from a year earlier. A check through the records shows it was the highest December output since 1972.

The same goes for October and November. October output, at 9.205 billion pounds, was up nine-tenth of a per cent from a year earlier, while November's output of 8.832 billion pounds was up 1.9 per cent from a year earlier. Both are the highest for those months since 1972, according to USDA records.

Prior to that final quarter push, national output had lagged behind that of 1974. With it, production for all of 1975 hit 115.5 billion lbs., up one-tenth of one pct. from a year earlier and two years ago - and, the highest since 1972.

A number of factors combined to bring about that final quarter boost. Among them, record high milk prices, a record large corn crop, and a large soybean crop, plus a large soybean carryover. The corn and soybean situation helped push dairy ration prices down. These resulted in the most favorable milkfeed price rations in nearly 4 years.

All milk sold to plants brought a near-record $9.66 per cwt. in October, hit a record $9.99 in November, then another record, at $10.20 for December, says USDA.

With those feed supplies ample, dairy ration prices started down. They averaged $5.95 per cwt. in October, down from $6.88 a year earlier and the milk-feed price ratio (pounds of feed equal in value to one pound of milk) hit 1.62. They were down to $5.63 per cwt. in November (compared to $6.91 a year earlier) and the milk-feed price ratio went to 1.77 vs. 1.23 a year earlier. In December, ration value went up to $5.71 per cwt., compared to $6.87 a year earlier and the milk-feed price ratio to 1.79 (vs. 1.20 in Dec. 1974). It's the highest its been since Feb. 1972. Moreover, in November, the difference in the value of 100 pounds of milk sold to plants and 100 pounds of concentrate ration stood at $4.36 ($9.99 minus $5.63 equals $4.36). That's about triple that of a year earlier and more than $1 above the previous record of Nov. 1973. The December difference was $4.49.

I make progress by having people around me who are smarter than I am — and listening to them. And I assume that everyone is smarter about something than I am.

Henry Kaiser

The earth provides enough for everyman's need, but not for everyman's greed.

Mahatma Gandhi

Water quality workshop set in Schuylkill Co.

SCHUYLKILL HAVEN - The Cooperative Extension Service of Penn State University will hold a public meeting on the subject of "water quality" on January 27 at 7:30 p.m. in the auditorium of the Municipal Building in Lehighton, reports John Sullivan, Schuylkill County community resource development assistant.

Henry Wooding, agricultural engineer from Penn State will cover well construction, protection of springs and methods of dissinfecting and detecting contaminated sources in wells.

Edward Jones, supervising sanitarian with the Department of Environmental Resources, will discuss how and where to have your water tested and how to interpret the results received from the laboratory. Water sampling kits will be available at the meeting for the fee of $1.00.

Don't take your water quality for granted, says Sullivan. Know how to protect it. Know how to tell if it is safe and what to do if it is safe and what to do if it is not. Invite your friends and neighbors to come to this meeting with you. Their actions have a bearing on the quality of your water.

York girl wins degree

Sylvia Dehoff, daughter of Paul M. Dehoff, Glen Rock R1, and the late Mrs. Lydia Dehoff, was one of two York County girls to receive the Keystone FFA Degree earlier this month.

Miss Dehoff is a 1975 graduate of York County AVTS where she majored in horticulture and floriculture.

An active member of the White Rose Chapter of the FFA, Miss Dehoff, participated in public speaking events as well as winning awards from the Pa. Flower Growers Association and the DeKalb Award for the outstanding senior.

The FFA'er held the office of sentinel for two years and was county sentinel for one year. She also worked as news reporter.

The young lady took marious projects connected with horticulture.

I do not regard the distribution of food around the world as a great burden upon us. I regard it as an opportunity to use our assets in a way which will attract people to the cause of freedom.

J. F. Kennedy

Longwood lectures planned

KENNETT SQUARE – Dr John M Fogg, Jr. will present the first of the 1976 Wednesday Evening Horticultural Lectures at Longwood Gardens at 8:30 p m on February 4, 1976 The lectures series is an annual event at Longwood, featuring six distinguished horticulturists who speak on subjects of interest to the home gardener

Dr Fogg, Director of the Arboretum of the Barnes Foundation in Philadelphia, will speak on "The Beginnings of Horticulture in America."

On February 11, Mr J Benjamin Williams will give his Longwood audience "The Secret to Growing Good Roses," outlining the steps to be taken for the most successful planting, fertilizing, watering, spraying and pruning. Included will be Mr William's evaluation of the best modern roses for gardens in the Delaware River Valley region Williams is a rose specialist and independent rose breeder. He is chairman of the Foundation Research Fund Committee of the American Rose Society and has been recognized by that society as the Outstanding Consultant Rosarian of America.

The "Sogetsu Style of Japanese Flower Arranging," will be the topic discussed on February 18 by Mrs Yone Sugiyama, Executive Director of Sogetsu, U S A. Sogetsu is one of the foremost Ikebana schools in Japan. Mrs. Sugiyama will demonstrate this style of design using fresh, dried and bleached plant materials and a variety of ceramic, iron and sculptural objects in her arrangements.

The fourth lecture of the Longwood series on February 25, is a slide illustrated talk entitled "A Botanist in Your Grocery Store." Dr Richard A. Howard, Director of the Arnold Arboretum of Harvard University, will take his audience through the grocery store in a most amusing way, explaining the botanical origins of many products available.

On March 3, Professor William R. Nelson, Jr., will outline practical step-by-step procedures for developing a residential landscape plan when he presents "Landscape Design Principles for Residential Properties."

The final lecture in Longwood's Wednesday Evening series will be given on March 10 by Dr. Darrel A. Apps, newly appointed Head of Longwood's Education Department In a slide illustrated presentation, Dr. Apps will discuss "Perennials for Your Garden," explaining the potential of these herbaceous plants in the landscape, and suggesting selections that will bloom throughout the growing season.

The Wednesday Evening lectures will be held at 8:30 p.m. in the Ballroom off the Main Conservatory at Longwood. The conservatories will be open and lighted for one hour before and after each lecture. Admission will be by payment of the $1.00 Wednesday admission fee to the gardens.

Longwood Gardens is one of the finest display gardens in this country. Its conservatories and landscaped grounds rival those of the finest gardens in Europe. Longwood is open daily, the grounds from 9 a.m. to 5 p.m., the conservatories from 10 a.m. to 5 p.m. Admission is $1.00 on weekdays, $1.50 on weekends and holiday.

Pesticide application exams scheduled

HARRISBURG – Monthly examinations for commercial pesticide applicators will beging in January in York, Adams and Franklin Counties, it was announced recently by the Pennsylvania Department of Agriculture.

The examinations are scheduled January 29 at the Adams County Extension Office, RD 3, Lincolnway West, Gettysburg; and January 30 at the Farm Credit Building, 3301 West Market Street, York. All sessions beging at 1:00 p.m. and will be strictly for the administration of exams; no instructional or educational program will be presented.

Examinations will be offered in all commercial categories. Individuals may be tested in as many areas as they desire.

Study materials are available and may be purchased from Penn State University as an aid in preparing persons for these examinations.

According to federal and state laws, individuals who apply or supervise the application of restricted use pesticdes will be required to become certified either as a private or commercial applicator. Certification must be accomplished prior to October 21, 1976.

Commercial applicators are persons engaged in the "business" of applying pesticides, whereas private applicators limit their operation to raising agricultural commodities on their own or rented property. Exterminators, groundkeepers, custom crop applicators and public health operators would be examples of commercial pesticide applicators.

These examination sessions are being coordinateds by Donald Lott, Pesticde Inspector for the Department of Agriculture. Anyone who has questions or who plans to attend any of the sessions is advised to contact Lott at the Region VI Office, Box 419, Summerdale, 17093, or their local county agent's office.

Registration in advance is necessary so that proper preparations can be made.

As soon as the second man appeared on earth, the rights of the first were cut in half. Now divide your rights by the total population, and that explains everything.

DECEMBER 1975

A Registered Brown Swiss cow owned by Donald B. Trimble, Quarryville R2, completed the highest 305 day lactation. Audrey produced 20,804 pounds of milk, 915 pounds of butterfat with a 4.4 percent test. Second high lactation was completed by a Holstein cow owned by David K. Stoltzfus, Box 107, Morgantown R1. Brenda produced 22,854 pounds of milk, 896 pounds of butterfat with a 3.9 percent test in 305 days.

The herd of Curtis E. Akers, Quarryville R1, had the highest daily butterfat average. This herd of 60.2 Registered & Grade Holstein cows averaged 54.5 pounds of milk, 2.15 pounds of butterfat with a 3.9 percent test. The herd of Henry B. Leaman, 1891 Windy Hill Road, Lancaster, placed second. This herd of 32.4 Registered & Grade Holstein cows averaged 48.2 pounds of milk, 2.07 pounds of butterfat with a 4.3 percent test.

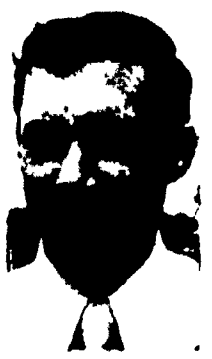
FACTS FOR DAIRYMEN



by N. Alan Bair
Associate County Agricultural Agent

All Out Production But . . .

With blend milk prices at record levels and class I utilization increasing in some areas, you don't have to be much of an economist to realize that you should try to produce all the milk you can. At least one milk co-op is urging you by letter to produce at your maximum potential in the coming year. With these kinds of encouragement and incentive, I too would echo the call for high production . . . but make sure the production is accomplished with the best possible use of your labor and capitol resources. Even though they are making a little milk, keeping cows around that should be culled is not excusable. Check your production records. It's cheaper to house, feed and milk one good cow than it is two mediocre cows. Set up some realistic culling guidelines for your herd and stick to them. If you're not sure what your culling standards are — you are already in trouble.

Do not sacrifice quantity for quality. I can guarantee all buyers of milk will maintain their high quality standards — no matter what the demand for milk is. With three markets waiting in line to purchase your milk, you may be tempted to be lax on the quality aspects Don't do it! You and the industry cannot afford it I know it's difficult to pour 6 or 9 milkings of $10 80 milk down the drain after treating a cow But you owe it to yourself, your neighboring dairymen, the industry and your fellowman to follow the rules Besides, as a final quality incentive, 6 milkings from one cow is cheaper than 4 milkings from all of your cows

Be careful to not over extend yourself financially I see too many farmers trying to buy their way to higher production. All the new barns, silos, milkers, super minerals and roulette wheels will not make more milk unless you do your job as manager. New equipment is sometimes necessary. Before investing, be sure that your return on investment on the equipment is realistic.

Heat Detection Records

Many of the breeding problems I get called in on are really heat detection problems. Heat detection in dairy cows is difficult during the winter stabling season.

Daily turn-outs are perhaps the most important means of improving the situation. Another practice which can be of great help is keeping a record of all heat periods. This record provides a good clue as to when each cow or heifer should be expected to return in heat.

This kind of record can be kept on an ordinary calendar. Each heat period is

[Continued on Page 61]

The American farmer is the man who has done more for America and received less for it than possibly any other group in our Nation — the man who fights year after year to do a good job, to use his soil and water wisely, to cooperate with government policies, to maintain a decent home for his family, only to see his crop price go down and down as the cost of his equipment and his utilities and his family's clothes and doctor bills go up and up.

Broilers up sharply

HARRISBURG — Poultry production in Pennsylvania increased sharply as 1976 got underway, according to the Crop Reporting Service.

Placements of broiler chicks in the Commonwealth for the week ending January 10, were 1,406,000 or 34 percent above the corresponding week a year earlier. This figure is also seven percent above the previous week.

Average placements during the past ten weeks were six-percent above a year earlier.

In the 21 key poultry producing states, placements were 59,870,000, which is one percent above the previous week and about the same as a year earlier. Average placements during the past ten weeks were eight percent above a year ago.

If Mr. Khrushchev had the choice between 50 scientists and 50 American farmers, he would take the farmers and be right . . .

ASCS officials receive post

Secretary of Agriculture Earl L Butz has reappointed William H Ringler of Berlin to the Pennsylvania State Agricultural Stabilization and Conservation (ASC) Committee The three member committee is responsible for the administration of federal farm programs.

The Somerset County farmer plants potatoes, oats, barley and sweet corn on the 180 acres he owns and the 270 acres he rents. Mr. Ringler also milks 50 Holsteins and maintains 65 young stock.

Honored as a Master Farmer by the State of Pennsylvania in 1974 and as Granger of the Year in 1969, Mr Ringler is active in farming and community organizations He has held membership in the Grange for 29 years, serving as a State Deputy for Somerset County for the past 16 years and currently serving on the legislative committee.

He is a past committee member of Agway, past Vice Chairman of the Conservation District Committee, and for the past two years he has chaired Farm-City Week. Mr. Ringler also belongs to the Holstein-Fresian Association, the Dairy Herd Improvement Association, the Pennsylvania Farmers Association and the Somerset County Potato Growers Association. A member of the Lutheran Church, Mr. Ringler participates as a lay minister and Sunday School teacher. He and his wife, Mildred, have two children.

Claude R Hetherington, Zion Grove, Pa., was also named as Chairman of the Pennsylvania State Agricultural Stabilization and Conservation (ASC) Committee State headquarters for the Pennsylvania Agricultural Stabilization and Conservation Service (ASCS) are at Harrisburg, Pennsylvania.

Mr. Hetherington, 64, operates a 422 acre general farm that borders on the Schuylkill and Columbia County line. He grows potatoes, cabbage, tomatoes, cucumbers, wheat, oats and other crops Mr. Hetherington has been farming since 1946. He is a member of the Master Farmers Association, the Pennsylvania Vegetable Growers Association, the Pennsylvania Cooperative Potato Growers, and other agricultural organizations. He is active in the Lions Club and serves on the Township Board of Supervisors Mr. Hetherington and his wife, Florence, have five children and twelve grandchildren.

Unlimited power is worse for the average person than unlimited alcohol; and the resulting intoxication is more damaging for others. Very few have not deteriorated when given absolute dominion. It is worse for the governor than for the governed.

William Lyon Phelps

Maryland ag. secretary sees 'hesitant' planting for 1976

ANNAPOLIS, Md. — Maryland grain farmers in 1975 set all time corn and soybean production records in answering the call for food but State Agriculture Secretary, Young D. Hance, says they have strong reason to "hesitate before doing it again in 1976."

Final 1975 crop production survey figures released by the Maryland Crop Reporting Service show that 50.1 million bushels of corn were harvested (up 11 percent from the 1974's old record of 44.9 million bushels) and 8.9 million bushels of soybeans (up from 1974's 8.8 million bushels). Corn yield per acre was also a new record for the state with an average of 91 bushels, up by seven bushels from 1974 and up six from the 1973 record yield of 75 bushels per acre.

However, 1975 tobacco production showed a steep decline with a harvest of 24.2 million pounds, down a full 20 percent from 1974 and the second smallest crop since 1945. Tobacco acreage at 23,000 was the lowest for Maryland since 1915.

Secretary Hance, commenting on the 1975 corn and soybean production records for Maryland said, "Our farmers, like those across the country, turned in a fantastic performance. They answered the country's call for increased production despite weather, skyrocketing fuel, machinery, fertilizer, pest and weed control costs. They did it with hard work and a willingness to assume huge credit risks.

"And what has been their reward? Depressed grain market prices, surplus grain, a dangerous downturn in export prospects, and a government in Washington which let them down by stumbling along with off-again, on-again, export embargoes. These embargoes nipped a fair-return grain market for wheat, corn and soybeans and cost the United States much of its selling momentum that started in 1972.

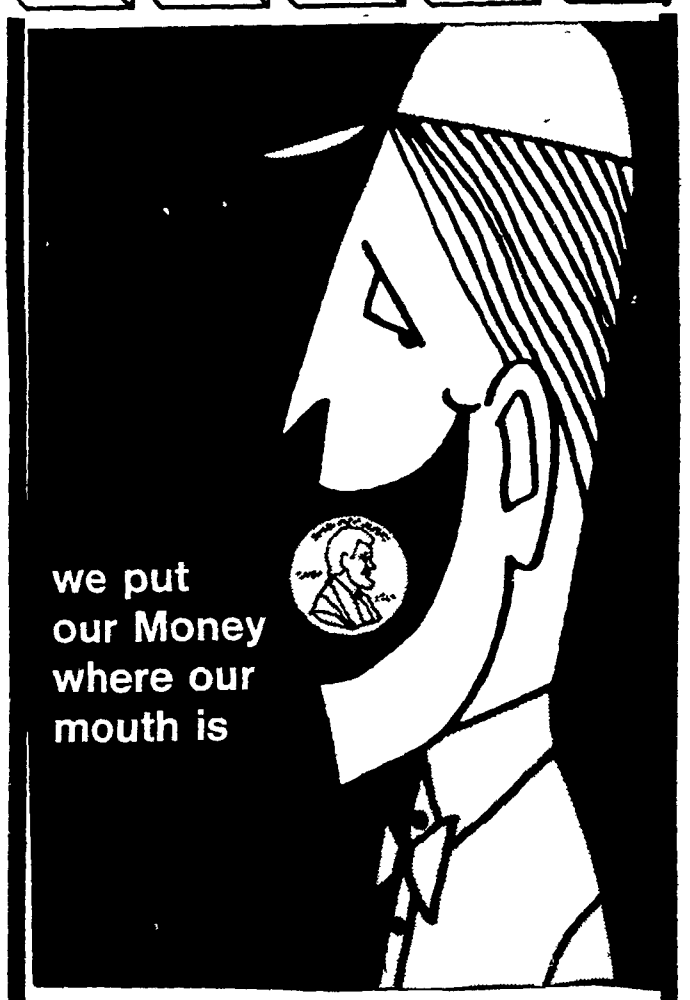
"I am sure many grain farmers may hesitate before doing it again in 1976. As businessmen, with large inventories of their goods on hand, they could very likely set their production sights a good bit lower. In the long run this would be a bad thing for American agriculture, the nation's strength and a hungry world.

Two men argued about which would take the only taxi in sight. One returned to his wife at the curb.

"Why did you let him have the cab?" she asked, annoyed.

"He needed it more than I did," the husband explained weakly. "He was late for his karate lesson."

AGWAY



PROOF: We guarantee 50 gallons of heating oil absolutely FREE if we let any Agway Certified Delivery* customer run out of heating oil during the September 1 to April 30 heating season

*(Minimum 275 gallon tank credit within approved limits on automatic delivery and heats with Agway fuel oil only)

And that's just one way Agway helps **BRING DOWN THE COST OF WINTER!!**

When you become an Agway customer, we have many other benefits to offer you For instance

FREE Efficiency Check — cuts the cost of winter for 9 out of 10 new Agway heating-service customers

Budget Payment Plan — equal monthly payments makes budgeting easier no interest or carrying charges for this service

Modernization Package — for tired, worn-out burners we can install a new, modern burner package with a 100% guarantee on all parts and workmanship for one year at a cost of just **$199.95**

NORTHCO NOW OFFERS PROVEN MANAGEMENT ASSISTANCE

Dr. George Wetherill

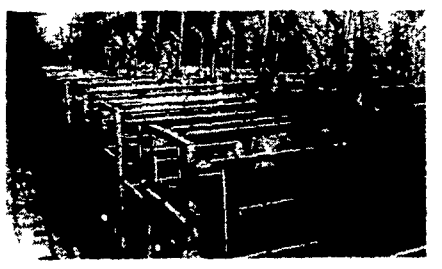
Dr. George Wetherill is a successful manager of a 300-sow Northco complex. His 1973 production records show these results from 644 litters:

- 19.99 pigs weaned per sow
- 9.31 pigs weaned per litter
- 2.15 litters per sow

Dr. Wetherill has joined the Northco team as a Swine Management Consultant. His management expertise, backed by his knowledge as a veterinarian are now available to help make your Northco operation more profitable than even before. Ask us how Dr. Wetherill can help you with swine management.

NORTHCO HOG SYSTEMS

Properly managed Northco systems produce top quality hogs profitably with a minimum of labor. All components of a Northco confinement system are designed to deliver maximum returns on the investment you put into swine production.



Farrowing

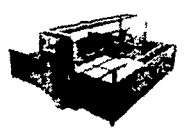
Northco Farrowing systems provide complete control over sow and litter. All crates are ruggedly constructed to deliver years of service. Special pig brooders target "zone heat" into the little pig area.

Finishing

Feed delivery is automatic yet the amount for each pen can be regulated separately. Pen partitions are sturdy and designed to aid in cleanliness. Northco's ventilation system draws fresh air from sidewall intakes, while exhausting warm humid air through roof exhaust ventilation units.

INDIVIDUAL COMPONENTS

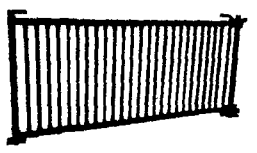
Superior design and engineering quality can be found in each Northco equipment component. Available separately.



Farrowing Crate

Self Feeder

Brooder



Pipe Gate

Roof Exhaust

Located ½ mile South of Fredericksburg off Route 343

The desperate economic condition of agriculture endangers the whole social and economic fabric of our rural farming communities. It raises serious dangers to our entire national economy. These economic dangers must be met and conquered boldly, constructively, and effectively.

J. F. Kennedy

The time to repair the roof is when the sun is shining — and the time to build a sound, long-range farm program is now.

J. F. Kennedy

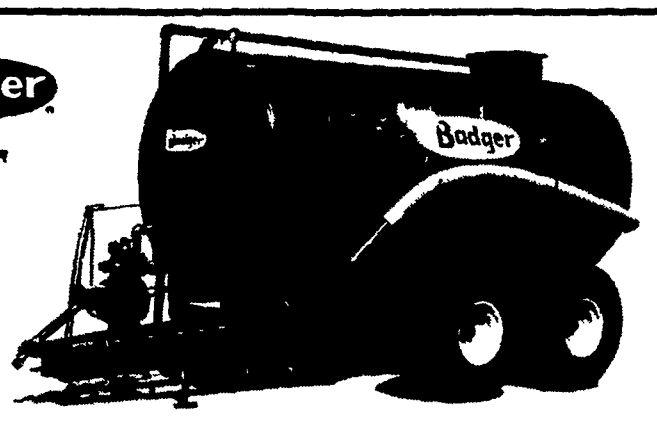
Badger

FARMING IS BETTER WITH BADGER



One Tank Does It All

Pumps, Spreads, Injects

The Badger Vacuum Spreader Tank is both pump and spreader in one convenient, low cost unit. Designed for slurry manure, Badger tanks come in 1,000, 1,500 and 2,300 gallon models. Rugged PTO driven pump forms a vacuum for filling or pressure for spreading. Tanks fill in 3 to 5 minutes - empty in 5 to 6 minutes in the field. Choose from adjustable spreader plate or manure injector. Heavy duty construction, including full length tank support skids, makes badger the most dependable vacuum spreader you can buy. See your nearest Badger dealer.

Farm & Home meeting featuring colonial fashions, 4-H grad.

LANCASTER - A former outstanding Lancaster County 4-H'er who went on to become director of Korea's 4-H program from 1966-72, will be the keynote speaker at this year's annual meeting of the Lancaster County Farm and Home Foundation.

He is Darvin Boyd who presently resides in Akron and works as a associate legislative research analyst for the Minority Caucus of the House of Representatives at Harrisburg. He will speak on the "Challenge of Commitment at Home and Abroad."

The meeting, which will be held at the Farm and Home Center, Lancaster, on Thursday, will begin at 6:30 p.m. Tickets must be ordered in advance and should be purchased no later than Monday, Jan. 26. They're available at $4.50 each from Foundation directors of the Center itself. The Center is located at 1383 Arcadia Road, just east of Pa. Route 72 where it joins US 30. Their phone number is 394-6851.

Additional attractions to this year's program include music by Gloria Longenecker, who's the current Miss Lancaster County, and a showing of colonial fashions by Lancaster County Farm Women Societies.

Since its opening in 1968, nearly half-a-million people have attended a broad variety of functions at the Farm and Home Center, which was constructed, and is supported entirely by funds from farmers and the business community. In addition to the Center itself - which was the first of its kind in the state - the Foundation also operates a scholarship fund to assist college-bound Lancaster Countains who are aiming at careers in home economics, agriculture, or nursing.

In addition to the dinner and Boyd's presentation, the gathering will also hear reports from Foundation president, Jay Landis, treasurer George Lewis and building manager Howard Campbell. A brief business meeting at the end of the program will include the election of seven new directors.

Miss Gloria Longenecker - Miss Lancaster County for 1976 - will provide musical entertainment at the annual meeting of the Lancaster County Farm and Home Foundation. Scheduled to take place Thursday evening at the Farm and Home Center, tickets must be ordered by Tuesday, Jan. 27.

Area corn growers elected to club

The Lester Brothers of Lincoln University were recently named members of the DeKalb Yieldmasters Club for producing 177.47 bu. of corn per acre in 1975.

Their yield, based on 15½ percent moisture, was mechanically harvested from a solid block measuring 1.246 acres. An impartial third party verified the high yield which was recorded from a field of DeKalb XL-64a.

Forest Lester planted the crop on May 15 in 38 inch rows and harvested an estimated stand of 22,500 plants per acre on Nov. 3. Grain test weight was 58 lbs. per bushel.

Two Northampton Co. farmers were also recently named members of the DeKalb Yieldmasters Club for producing top corn yields in 1975.

They are: Nick Cihylik, Treichlers - 215.96 bu. per acre with DeKalb XL-64a; and the Fulmer Brothers, Nazareth - 172.96 bu. per acre with DeKalb XL-64.

All yields were mechanically harvested from a solid block measuring one or more acres, calculated on the basis of 15½ percent moisture and verified by an impartial third party.

Cihylik planted his crop on May 21 in 30 inch rows and harvested an estimated stand of 30,000 plants per acre. Grain test weight was 56½ lbs. per bushel.

Robert Fulmer planted the crop on May 13 in 36.7 inch rows and harvested an estimated stand of 19,300 plants per acre on Nov. 6.

The purpose of the DeKalb Yieldmasters Club is to promote an exchange of ideas and information among the nation's leading grain producers and to recognize them for their outstanding accomplishments as well as their important role in helping feed the world. Through the sharing of such information, the program also encourages farmers to adopt management and cultural practices that will aid them in obtaining maximum profit from each acre.

Each year, farmers throughout the country submit more than 1,000 corn, sorghum, wheat and silage yields to the club.

Facts

(Continued from Page 54)

merely noted on the appropriate date, along with the animal's identification. A more convenient system is a "heat expectancy chart." Dates are listed in vertical columns of 21 days each and the chart includes a full year. It is easy to tell which animals should be in heat on any given date merely by noting which ones were in heat on the corresponding days in the column to the left.

These heat expectancy charts can be obtained without charge from any of the artificial breeding organizations.

From Local Ag Teachers:

Thoughts in Passing

By RONALD ALTHOFF
Solanco FFA Instuctor

Many local FFA Chapters are now selling vegetable seeds.

Before seeds are ordered, a garden plan should be complete. Sometimes this plan is simply correcting the mistakes you made last year. For the beginning gardner it is planning crops for the complete growing season. A good plan should include which vegetables you want to plant and the space that is available for a garden. In some instances certain vine type vegetables (cucumbers, pumpkins) may need to be eliminated because of insufficient space. Try to visualize the mature height and spread of the vegetables in order to plan for proper row spacing. Distance between rows also depends on the type of cultivation that will be used. Narrow rows are easy to hoe, but it's difficult to find a garden tractor that will fit between the rows. To obtain needed sunlight tall vegetables need to be placed in a position so they do not shade low growing types of vegetables. By planning, you can use the same space to grow two or three crops in succession in a single season. When you take out an early crop, plant another one as soon as soil preparation is completed. When your plan is completed, you will have a more correct estimate of the seeds and plants needed to produce your dream garden.

Before you buy any seeds, consider the pros and cons of both seed catalogs and isplay racks in stores. Most catalogs offer you a wider selection than store racks, but when you buy from FFA members you also help your local chapter to raise some funds for FFA activities.

New varieties and hybrids are constantly being developed. Try them you might like them. Well-known varieties aren't necessarily the best. Some varieties are susceptible to a number of plant diseases, but because it is a familiar variety, gardners continue to plant it.

Regardless of where you purchase seeds, buy only what you can use in one season and check the seed packages for expiration dates. Buying too much, is not only expensive, but it depletes certain varieties early in the season. Buy early to avoid the spring rush.

A well planned garden, usually means a garden with a better appearance. Proper planning also makes caring for the garden easier.

We have barely begun to explore the ways in which our abundance can advance the cause of peace and freedom around the world.
J. F. Kennedy

American agricultural abundance can be forged into both a significant instrument of foreign policy and a weapon against domestic hardship and hunger.
J. F. Kennedy

Training completed

NEW HOLLAND - Dave Greek, mechanic for Airville Farm Service, Airville, has returned from a week-long training program at the Sperry New Holland Service Training Center, here. While at the center he attended sessions in the service and repair of a wide variety of modern farm machinery.

Greek, who resides in Airville, has been employed by Airville Farm Service for 9 months. He has a 3 year farm background and a 2 year mechanical background.

The Sperry New Holland Training Center is one of the most modern training facilities in the nation for instructing dealer and company servicemen in farm machinery repairs.

4-H Notes

Mt. Airy Dairy

The Mt. Airy Dairy Club met at the Hunterdon County, N.J. Extension Center with 14 members and one leader. It was a business meeting scheduling the calendar for the up coming year. The next meeting will be demonstrations by Mary Sue Phillips and David Everritt and a film on "Dairy Feed Ingredients", reports Jan Emmons.

Black River Horse

The Black River Horse Club met recently at the Fairmount Community House with 28 members, one visitor, and two leaders. Demonstrations were held by Karen Wasliewicz on "Great Race Horses" and Leah Zeichner and Tammy Carpenter on "Harness Racing". The next meeting will be held on February 10 at 7:30 p.m. at the Fairmount Community House, reports Debbie Castellani.
